[HB 75]

AN ACT AUTHORIZING THE DEPARTMENT OF HEALTH AND ENVIRONMENTAL SCIENCES TO ESTABLISH AND ENFORCE STANDARDS FOR THE MANAGEMENT OF USED OIL; AMENDING SECTIONS 75-10-402, 75-10-403, 75-10-405, 75-10-410, 75-10-415, 75-10-416, 75-10-418, 75-10-422, AND 75-10-424, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

STATEMENT OF INTENT

A statement of intent is required for this bill in order to provide guidance to the department of health and environmental sciences in promulgating rules. It is the intent of the legislature that the department of health and environmental sciences adopt rules governing the management of used oil that are consistent with the standards adopted by the U.S. environmental protection agency under section 3014 of the federal Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6935), as amended.

Be it enacted by the Legislature of the State of Montana:

Findings and purpose.** (1) The legislature finds that the safe and proper management of hazardous wastes *and used oil*, the permitting of hazardous waste facilities, and the siting of facilities are matters for statewide regulation and are environmental issues that should properly he addressed and controlled by the state rather than by the federal government.

(2) It is the purpose of this part and it is the policy of this state to protect the puhlic health and safety, the health of living organisms, and the environment from the effects of the improper, inadequate, or unsound management of hazardous wastes *and used oil*; te establish a program of regulation over *used oil and* the generation, storage, transportation, treatment, and disposal of hazardous wastes; to assure the safe and adequate management of hazardous wastes *and used oil* within this state; and to authorize the department to adopt, administer, and enforce a hazardous waste program pursuant to the federal Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6901 - 6987), as amended.

(3) The legislature also finds that petroleum products and hazardous substances stored in underground tanks are a separate category of substances that are regulated under the federal Resource Conservation and Recovery Act of 1976, as amended, and must be addressed and controlled properly by the state under the Montana Hazardous Waste and Underground Storage Tank Act. It is the purpose of this part to authorize the department te establish, administer, and enforce an underground storage tank leak prevention program for these regulated substances. The department may use the authority provided in 75-10-413 through 75-10-417 and other appropriate authority provided by law to remedy violations of underground storage tank requirements established under this part."

CHAPTER NO. 29

[HB 171]

AN ACT CREATING THE EXCESS TAX REFUND AGREEMENT (EXTRA); PROVIDING FOR THE ADMINISTRATION OF THE EXCESS TAX REFUND AGREEMENT; STATUTORILY APPROPRIATING MONEY FOR TAX REFUNDS AND THE ADMINISTRATION OF REFUNDS; AMENDING SECTION 17-7-502, MCA; AND PROVIDING EFFECTIVE DATES AND A TERMINATION DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Excess tax refund agreement (EXTRA). [Sections 1 through 3] may be referred to as the "Excess Tax Refund Agreement" or "EXTRA".

Section 2. Refund of excess revenue in state general fund and state school equalization aid account — process — requirements — limitations. (1) On or before October 15, 1995, the department of administration shall determine and certify to the governor the combined total of the unreserved ending fund balances in the general fund, described in 17-2-102(1)(a)(i), and the school equalization aid account, described in 20-9-343, for the fiscal year ending June 30, 1995.

(2) If the amount of the unreserved ending fund balances described in subsection (1) exceeds $24.4 million, the amount in excess of $24.4 million, subject to the limitation provided in subsection (8), is the amount available for refund under this section.

(3) The amount determined under subsection (2) to be available for refund must be refunded on a pro rata basis to each taxpayer who filed a state income tax return, pursuant to 15-30-103, for tax year 1994.

(4) For the purposes of this section:

(a) the term "taxpayer" does not include a fiduciary or a beneficiary of an estate or trust who was required to file an income tax return pursuant to 15-30-135 unless a 1994 return was filed on behalf of a decedent;

(b) a return filed using the filing status married filing jointly is considered to have been filed by a single taxpayer; and

(c) the 1994 tax year is the 12-month period beginning January 1, 1994, and ending December 31, 1994, except that for fiscal year taxpayers, the 1994 tax year is a 12-month period ending between January 1, 1994, and December 31, 1994.

(5) (a) The pro rata distribution of the amount available for refund must be calculated by the department by dividing the amount available for refund described in subsection (2) by the total individual income tax liability as determined by the department from all 1994 tax year returns that were filed by October 15, 1995.

(b) The percentage determined in subsection (5)(a), adjusted to take into account the limitations contained in subsection (7), must be used as the adjusted

HeinOnline -- 1995 vol. I 106 1995

percentage multiplier described in subsection (5)(c) to determine the amount of each taxpayer's refund. The department may not alter or change the adjusted percentage multiplier.

(c) The department shall calculate the amount of each taxpayer's refund by multiplying the amount of tax shown on the taxpayer's return on line 40 of the 1994 Montana Individual Income Tax Return, Form 2, or line 27 of the 1994 Montana Individual Income Tax Return, Short Form 2S, depending on the form used by the taxpayer for tax year 1994, by the adjusted percentage multiplier determined in subsection (5)(b).

(6) (a) The department shall calculate the amount of each taxpayer's refund based on the taxpayer's 1994 tax year return on file with the department hy Octoher 15, 1995. A taxpayer filing a delinquent return for the 1994 tax year after October 15, 1995, is not eligible for a refund under this section.

(b) (i) If a taxpayer files an amended return or if the department reviews a taxpayer's return and recalculates the tax due to the state, the department shall recalculate the refund due to the taxpayer under this section.

(ii) If the department's recalculation determines that the taxpayer has an increased tax liability for tax year 1994 and should receive an additional refund under this section as a result of increased 1994 liability, the department shall credit the additional amount of refund under this section to the amount of additional tax due from the taxpayer.

(iii) If the amount of the recalculated refund due to the taxpayer exceeds the amount of additional tax due from the taxpayer, the department shall pay the excess amount to the taxpayer, but only if the amount of the refund exceeds $10.

(iv) If, as the result of the taxpayer filing an amended return or of a review by the department, a taxpayer's original 1994 tax liability is decreased, any overpayment of the refund calculated by the department based on the original tax liability must be credited against any refund due to the taxpayer.

(7) A refund paid to a taxpayer pursuant to this section may not exceed $1,000. The department may not issue a refund under this section if the amount of the refund is $10 or less.

(8) Refunds may not be made under this section if the total amount available for refund as determined in subsection (2) is less than $10 million.

(9) Beginning in November 1995, the department shall calculate and issue refunds due to taxpayers under this section.

(10) (a) Notwithstanding the provisions of 15-1-211, any objection concerning the determination of the amount of refund or any other issue relating to the refunds provided in this section must be raised by the taxpayer with the department no later than 30 days after the refund is mailed to the taxpayer.

(b) A district court has no jurisdiction to entertain or consider any issue relating to the determination or payment of a refund made under this section unless the issue was first presented to the department and the taxpayer exhausted all administrative remedies.

The application must be filed on or before the first Monday in June or ~~15~~ *30* days after receiving either a notice of classification and appraisal or determination after review under 15-7-102(3) from the department, whichever is later. (5) (a) Unless the court makes a written exception under 40-5-315 or 40-5-411 and the exception is included in the support order, a support obligation established by judgment, decree, or order under this section, whether temporary or final, and each modification of an existing support obligation under 40-4-208 must be enforced by immediate or delinquency income withholding, or both, under Title 40, chaptor 5, part 3 or 4. A support order that omits the written exceptions provided in 40-5-315 or 40-5-411 or that provides for a payment

arrangement inconsistent with this section is nevertheless subject to withholding for the payment of support without need for an amendment to the support order or for any further action by the court.

(b) If an obligor is exempt from immediate income withholding, the district court judgment or order must include a warning statement that if the obligor is delinquent in the payment of support, the obligor's income may he subject to income withholding procedures under Title 40, chapter 5, part 3 or 4. Failure to include a warning statement in a judgment or order does not preclude the use of withholding procedures.

(c) After October 1, 1993, if a support order subject to income withholding is expressed in terms of a monthly obligation, the order may he annualized and withheld on a weekly or biweekly basis, corresponding to the obligor's regular pay period. *When an order is annualized and withheld on a weekly or biweekly basis under this section, the support withheld from the obligor may be retained by the obligee when it exceeds the obligor's monthly support obligation if the excess support is a result of annualized withholding.*

(6) For the purposes of income withholding under subsection (5), ~~every~~ *each* district court judgment, decree, or order that establishes or modifies a child support obligation must include a provision requiring the parent obligated to pay support to inform the court and, if the department of social and rehabilitation services is providing services under Title IV-D of the Social Security Act for the enforcement of the judgment, decree, or order, the department, of the following:

(a) the name and address of the parent's current employer;

(b) whether the parent has access to health insurance through an employer or other group; and

(c) if insurance coverage is available, the health insurance policy information.

(7) If the department of social and rehahilitation services is providing or later provides support enforcement services under Title IV-D of the Social Security Act, each district court order or modification of an order must contain a statement providing that the noncustedial parent, without further order of the court, is required to obtain and maintain health insurance coverage as provided in 40-5-208. Failure to include a warning statement in the judgment or order does not preclude the imposition of sanctions under 40-5-208.

(8) Each district court judgment, decree, or order establishing a final child support obligation under this part and each modification of a final order for child support must contain a statement that the order is subject to review and modification by the department of social and rehabilitation services upon the request of the department or a party under 40-5-271 through 40-5-273 when the department is providing services under Title IV-D of the Social Security Act for the enforcement of the order.

(9) (a) A district court judgment, decree, or order that establishes or modifies a child support obligation must include a provision requiring the child support to be paid to:

(i) the legal custodian of the minor child;

(ii) (A) any other person, organization, or agency having legal physical custody of the minor child under a legal assignment of rights; or

(B) the court for the benefit of the minor child;

(iii) any other person or agency designated as caretaker of the minor child by agreement of the legal custodian; or

(iv) any assignee or other person, organization, or agency authorized to receive or collect child support.

(b) A judgment, decree, or order that omits the provision required by subsection (9)(a) is subject to the requirements of subsection (9)(a) without need for an amendment to the judgment, decree, or order or for any further action by the court."

The order or modification of an order must include a statement that the insurance must be obtained and maintained whenever the department is providing support enforcement services and that the failure te do so may result in the imposition of sanctions under this section.

(b) If the support order or modification of an order does not include a provision requiring the obligor to provide health insurance coverage for a child, upon notice to the obligor that the child is receiving support enforcement services under Title IV-D of the Social Security Act, the obligor shall obtain and maintain health insurance coverage as provided for in subsection (1)(a). (2) At any time after 10 years from the date of termination of the support obligation *or after 10 years from entry of a lump-sum judgment or order for support arrears, whichever is later*, the department may charge off as uncollectible any support debt upon which the department finds there is no available, practical, or lawful means by which the support debt may be collected. A proceeding or action under the provisions of this part may not be begun after expiration of the 10-year period to institute collection of a support debt. This part may not be construed to render invalid or nonactionable a warrant for distraint issued by the department prior to the expiration of the 10-year period or an assignment of earnings executed prior to the expiration of the 10-year period."

~~(b)~~*(ii)* not less than 25% of the obligor's disposable earnings.

(b) If withholding is annualized, when deducted in equal amounts, the amount withheld each pay period must be sufficient to pay all installments due in a 12-month period under the order to withhold.

(2) The district court may allow a fee of not to exceed $5 per deduction, which the employer may deduct from the obligor's wages or salary for the expense of administering the deduction.

(3) The total amount to be deducted under subsections (1) and (2) may not exceed the maximum amount permitted under section 303(b) of the Consumer Credit Protection Act, 15 U.S.C. 1673(b), as amended.

Section 12. Section 40-5-414, MCA, is amended to read:

"**40-5-414. Hearing.** (1) To contost the withholding of income initiated under 40-5-412 because of a delinquency *or the modification of an existing order to withhold*, an obligor may within 10 days of being served with notice of intent to withhold income under 40-5-413 file with the department a written request for an administrative hearing to be held pursuant to the contested case provisions of Title 2, chapter 4, part 6.

(2) Venue for the administrative hearing may be in the county where the obligor resides if the obligor resides in this state, the county in which the payor or the payor's agent is located, or the county in which the department or any of its regional offices is located.

(3) The administrative hearing must be held by teleconferencing methods unless the obligor or the department expressly requests an in-person hearing before the ~~hearing~~ *hearings* examiner.

(4) If the obligor requests a hearing within the 10-day period:

(a) the *initiation of* delinquency income withholding by the department *and the modification of an existing withholding order* must be stayed until conclusion of the hearing or the date of the hearing if the obligor fails to appear at the scheduled hearing. ~~If~~ *However, in a proceeding to initiate income withholding, if* the obligor is only contesting an arrearage amount and is not contesting withholding for current support, income withholding for current support is not stayed. *In a proceeding to modify an existing order, income withholding under the existing order to withhold is not stayed.*

HeinOnline -- 1995 vol. I 181 1995

(b) the department shall, within 45 days of the service of the notice of intent to withhold income, inform the obligor of the hearing results concerning whether income withholding will take place.

(5) The department shall issue an order to withhold income *or a modified order to withhold* in accordance with 40-5-415 if:

(a) the obligor fails to file a written request for hearing with the department within the specified 10-day period;

(b) the obligor fails to appear at a scheduled hearing;

(c) the ~~hearing officer~~ *hearings examiner* determines from the evidence that the obligor owes unpaid support equal to or in excess of 1 month's support obligation and the amount of arrearages owing is determined and adjudged to be a fixed and certain sum; ~~or~~

(d) there is an existing order to withhold and if the hearings examiner determines from the evidence that the obligor owes new or additional amounts in arrears; or

~~(d)~~*(e)* in cases in which income withholding is being initiated at the request of an obligee without regard to whether there is an arrearage, the ~~hearing~~ *hearings* examiner determines from the evidence that the obligor did not meet the terms of the alternative arrangement.

(6) For purposes of the hearing process, arrearages of support must be computed on the basis of the amount owed and unpaid on the date *on which* the obligor was served with the notice of intent to withhold income. When the department is enforcing a current support obligation, payment of the arrearage after service of the notice is not a basis for not initiating income withholding.

(7) In a case initiated because an arrearage has accrued or because additional income is being withheld to satisfy additional arrearages, the obligor, within 45 days of service of the notice of intent to withhold income, must be informed of the hearing decision on whether income withholding will take place.

(8) If the obligor fails to request a hearing within 10 days or fails to appear at a scheduled hearing or if the ~~hearing~~ *hearings* examiner determines that the obligor owes a combination of unpaid support equal to or in excess of 1 month's support obligation *or determines that a modification of an existing order is proper*, the department shall proceed with the intended action in accordance with 40-5-415."

Section 13. Section 40-5-416, MCA, is amended to read:

"40-5-416. Determination of amount of income to be withheld. (1) (a) Subject to the limitations provided in subsection (2), the amount of funds to be withheld each month from the obligor's income must be the amount of money necessary to pay current installments of support as they become due and payable.

(b) If income is being withheld to satisfy an arrearage, the amount of funds to be withheld must include the greater of:

(i) the amount of money that, when deducted in equal amounts each month, will pay all outstanding support arrearages and interest, if any, within 2 years; or

(ii) 25% of the ohligor's income.

(c) If income is being withheld under this part, the department may allow a fee not to exceed $5 each month, which may be withheld by the payor as compensation for the administrative costs of each withholding.

(d) If a support order subject to income withholding is expressed in terms of a monthly obligation, the order may be annualized and withheld on a weekly or biweekly basis, corresponding to the obligor's regular pay period. If withholding is annualized, when deducted in equal amounts, the amount withheld each pay period must be sufficient to pay all installments due in a 12-month period under the order to withhold.

(2) The maximum amounts withheld from the obligor's wages or salaries, including fees, may not exceed the maximum amount permitted under section 303(b) of the federal Consumer Credit Protection Act, 15 U.S.C. 1673(b), as amended.

(3) At any time, if the ohligor can show that substantial hardship will result if the maximum permissible withholding is implemented or continued, the department for cause shown may in its discretion determine a lesser amount to be withheld each month in satisfaction of support arrearages."

Section 14. Section 53-2-613, MCA, is amended to read:

"**53-2-613. Application for assistance — assignment of support rights.** (1) Applications for public assistance, including but not limited to aid to families with dependent children and medical assistance, must be made to tbe county department of public welfare in the county in which the person is residing. The application must be submitted, in the manner and form prescribed by the department of social and rehabilitation services, and must contain information required by the department of social and rehabilitation services.

(2) A person by signing an application for public assistance assigns to the state, *to* the department of social and rehabilitation services, and to the county welfare department all rights *that* the applicant may have to support and medical payments from any otber person in the applicant's own behalf or in behalf of any other family member for whom application is made.

(3) The assignment:

(b) takes effect upon a determination that the applicant is eligible for public assistance;

(c) remains in effect with respect to the amount of any unpaid support and medical obligation accrued under the assignment that was owed prior to the termination of public assistance to a recipient.

HeinOnline -- 1995 vol. I 183 1995

(4) Whenever a *child support or spousal* support obligation is assigned to the department of social and rehabilitation services pursuant to this section, the following provisions apply:

(a) If the support obligation is based upon a judgment or decree or an order of a court of competent jurisdiction, the department may retain assigned support amounts in an amount sufficient to reimburse puhlic assistance money expended.

(b) A recipient or former recipient of public assistance may not commence or maintain an action to recover *or enforce* a delinquent support obligation ~~without notifying the department's child support enforcement division. The department may then release or relinquish its assigned interest or enter the proceeding. This subsection (4)(b) does not limit the right of any person to recover money not assigned.~~ *or make any agreements with any other person or agency concerning the support obligation, except as provided in 40-5-202.*

(c) If a notice of assigned interest is filed with the district court, the clerk of the court may not pay over or release for the benefit of any recipient or former recipient of public assistance any amounts received pursuant to a judgment or decree or an order of the court until the department's child support enforcement division has filed a written notice that:

(ii) all assigned support delinquencies, if any, are satisfied or released.

(d) A recipient or former recipient of public assistance may not take action to modify or make any agreement to modify, settle, or release any past, present, or future support obligation unless the department's child support enforcement division is given written notice ~~and an opportunity to participate~~ *under the provisions of 40-5-202.* Any modifications or agreements entered into without the participation of the department are void with respect to the state, the department, and the county welfare department."

Section 15. Credit for payments. An amount collected and credited for a particular period pursuant to a support order issued by a tribunal of another state must be credited against the amount accruing or accrued for the same period under a support order issued for the same obligation by a tribunal of this state.

Section 16. Codification instruction. [Section 15] is intended to be codified as an integral part of Title 40, chapter 5, part 1, and the provisions of Title 40, chapter 5, part 1, apply to [section 15].

Section 17. Coordination instruction. If both [this act] and ____ Bill No. ____ [LC 365] are passed and approved and if ____ Bill No. ____ [LC 365] includes a section that amends 40-5-208, then [section 9 of this act], amending 40-5-208, is void.

Section 18. Severability. If a part of [this act] is invalid, all valid parts that are severable from the invalid part remain in effect. If a part of [this act] is invalid in one or more of its applications, the part remains in effect in all valid applications that are severable from the invalid applications.

CHAPTER NO. 61

[HB 12]

AN ACT AUTHORIZING THE ISSUANCE OF GENERAL OBLIGATION BONDS TO FUND THE STATE BUILDING ENERGY CONSERVATION PROGRAM; APPROVING ENERGY CONSERVATION PROJECTS FOR FISCAL YEARS 1996 AND 1997; APPROPRIATING BOND PROCEEDS TO THE DEPARTMENT OF NATURAL RESOURCES AND CONSERVATION; PLEDGING THE CREDIT OF THE STATE OF MONTANA TO SECURE THE BONDS TO BE ISSUED; REAPPROPRIATING STRIPPER-WELL PAYMENTS CONTAINED IN THE FEDERAL SPECIAL REVENUE FUND; REVISING THE PROCEDURES AND REQUIREMENTS FOR THE ENERGY CONSERVATION PROGRAM; AMENDING SECTION 90-4-605, MCA; AND PROVIDING AN EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Stripper-well payments — reappropriation — definition — priority. (1) There is reappropriated from the stripper-well payments contained in the federal special revenue fund to the department of natural resources and conservation $100,000 to fulfill duties authorized by 90-4-605 and 90-4-607. The original appropriation was contained in section 9, Chapter 597, Laws of 1989. The reappropriation is a biennial appropriation.

(2) (a) "Stripper-well payments" means the oil overcharge payments made to the United States treasury for distribution to the state of Montana as the result of the final settlement agreement in Cause No. M.D.L. 378, United States district court for the district of Kansas, and any interest accrued on the payments.

(b) The term does not include stripper-well payments that have been expended or legally obligated or have been incorporated into any of the existing federal energy programs as the result of prior appropriations by the legislature.

(3) The stripper-well payments reappropriated in this section have a higher priority than any other appropriation of stripper-well payments for fiscal years 1996 and 1997.

Section 2. Appropriation of bond proceeds. There is appropriated from bond proceeds authorized by Chapter 571, Laws of 1991, Chapter 350, Laws of 1993, and [section 4] $625,000 to the department of natural resources and conservation to fulfill duties under 90-4-605 and 90-4-607. This appropriation is a biennial appropriation.

Section 3. Approval of energy conservation projects — definition. (1) Pursuant to Title 90, chapter 4, part 6, the legislature approves the following energy conservation projects for fiscal years 1996 and 1997:

HeinOnline -- 1995 vol. I 185 1995

Department of Military Affairs
Kalispell National Guard Armory
Helena National Guard Headquarters

(2) In addition to the energy conservation projects listed in subsection (1), the department of natural resources and conservation may expend funds appropriated under [section 4] to respond to lost energy saving opportunities.

(3) For purposes of this section, a "lost energy saving opportunity" means an opportunity to improve energy use that would provide significant energy and cost savings to the state and that will be technically infeasible or uneconomical if the department is delayed in providing the necessary funds until specific legislative approval can be obtained.

(4) If the costs of the projects authorized in subsections (1) and (2) are substantially below the bond amount authorized in [section 4], the department of natural resources and conservation may fund projects that otherwise would be proposed as part of the state building energy conservation package for fiscal years 1998 and 1999.

(5) The retrofit of Montana state university-northern must be conducted as a pilot project, using performance contracting. Montana state university-northern shall use state general obligation bonds authorized under [section 4] to fund energy efficiency improvements in campus buildings used for instructional purposes. Montana state university-northern may provide financing other than state general obligation bonds for energy efficiency improvements in buildings supported by student fees and revenue. Whenever state general obligation bonds are used, resulting energy cost savings must be transferred to the energy conservation program account as provided in 90-4-614. If funding other than state general obligation bonds is used for improvements in buildings supported by student fees and revenue, a performance contract must be developed jointly by Montana state university-northern, the

department of natural resources and conservation, and the department of administration and any resulting energy cost savings in these buildings in excess of debt service and program costs must remain with the auxiliary services at Montana state university-northern.

Section 4. Bond authorization — appropriation of bond proceeds. (1) The board of examiners may, pursuant to 90-4-611, issue and sell bonds of the state in an aggregate principal amount not to exceed $5.5 million for fiscal years 1996 and 1997 for the projects approved in [section 3] and to fulfill duties authorized hy 90-4-605 and 90-4-607 as provided in [section 2]. The bonds are general obligations for which the full faith and credit and taxing powers of the state are pledged for payment of the principal and interest on the bonds. The bonds must be issued as provided by Title 17, chapter 5, part 8.

(2) The proceeds of the bonds, other than any premiums and accrued interest received, must be deposited in the energy conservation program account established by 90-4-612. Premiums and accrued interest must be deposited in the debt service fund established in 17-2-102. Proceeds of bonds deposited in the energy conservation program account may be used to pay the costs of issuing the bonds, to fulfill duties authorized by 90-4-605 and 90-4-607, and to fund the projects approved in [section 3]. For purposes of 17-5-803 and 17-5-804, the energy conservation program account constitutes a capital projects account. The bond proceeds must be available to the department of natural resources and conservation and may be used for the purposes authorized in this section without further budgetary authorization.

Section 5. Section 90-4-605, MCA, is amended to read:

"90-4-605. Preparation of energy conservation program. (1) Before June 30 of each odd-numbered year, ~~state agencies shall submit to~~ the department~~, on forms provided by the department, a list of any facilities operated by that agency~~ *shall inform, in writing, each state agency of the energy conservation program and request agencies interested in participating in the program to contact the department. The department shall work with these agencies to identify buildings* that have a potential for energy savings, based on age, energy use, function, and condition of the building. ~~Agencies may request assistance from the department to identify these facilities.~~

(2) Based on the criteria in subsection (1) *and on the feasibility of leveraging other funds, such as federal and utility energy conservation program money,* the department shall select certain facilities for in-depth energy analyses to identify the technical and financial feasibility of making energy conservation improvements to the facilities.

(3) During the energy analyses, the department shall consult with the utilities that serve the selected facilities to discuss potential impacts on the utilities and their customers of making energy conservation improvements to these facilities.

(4) Upon completion of the energy analyses, the department shall submit to the governor its findings and a ~~prioritized~~ list of projects recommended for funding under the energy conservation program. The department shall ~~rank projects in terms of cost-effectiveness~~ *identify estimated costs and savings* to the state *based on these analyses.*

HeinOnline -- 1995 vol. I 187 1995

(5) The department shall compile a report that must include the following:

(a) a listing of ~~all requests submitted by~~ *contacts between the department and other* state agencies;

(b) a summary of the department's review of agency requests *and a selection of projects for in-depth analysis*;

(c) a summary of the energy analyses conducted by the department, including the estimated cost of each proposed project and the estimated energy cost savings of each proposed project;

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 40-5-232, MCA, is amended to read:

"40-5-232. Establishment of paternity — notice of paternity determination — contonts. (1) When the paternity of a child has not been legally established under the provisions of Title 40, chapter 6, part 1, or otherwise, the department may proceed to establish paternity under the provisions of 40-5-231 through 40-5-237. An administrative hearing held under the provisions of 40-5-231 through 40-5-237 is a contestod case within the meaning of 2-4-102 and is subject to the provisions of Title 2, chapter 4, except as otherwise provided in 40-5-231 through 40-5-237.

(2) It is presumed to be in the best interest of a child to legally determine and establish paternity. A presumption under this subsection may be rebutted by a preponderance of the evidence.

HeinOnline -- 1995 vol. I 208 1995

(3) In any proceeding under 40-5-231 through 40-5-237, if a ~~man~~ *person* acknowledges paternity of a child in writing and the acknowledgment is filed with the department, the department may enter an order establishing legal paternity. *As a part of a voluntary acknowledgment, the department shall provide information to the parents regarding the rights and responsibilities of acknowledging paternity.* An acknowledgment is binding on a parent who executes it, whether or not the parent is a minor.

(4) Full faith and credit must be given to a determination of paternity made by any other state, whether presumed by law, established through voluntary acknowledgment, or established by administrative or judicial processes.

~~(4)~~(5) The department shall commence proceedings te establish paternity by serving on an alleged father a notice of paternity determination. The department r ay not serve the notice unless it has:

(a) a sworn statement from the child's mother claiming that the alleged father is the child's natural father;

(b) evidence of the existence of a presumption of paternity under 40-6-105; or

(c) any other reasonable cause to believe that the alleged father is the child's natural father.

~~(5)~~*(6)* Service on the alleged father of the notice of patornity determination must be made as provided in 40-5-231(2). The notice must include:

(a) an allegation that the alleged father is the natural father of the child involved;

(b) the child's name and place and date of birth;

(c) the name of the child's mother and the name of the person or agency having custody of the child, if other than the mother;

(d) the probable time or period of time during which conception took place;

(e) a statement that if tbe alleged father fails to timely deny the allegation of paternity, the question of paternity may be resolved against the alleged father without furtber notice;

(f) a statement that if the alleged father timely denies the allegation of paternity:

(i) the alleged father is subject to compulsory *paternity* blood testing;

(ii) a *paternity* blood test may result in a presumption of paternity; and

(iii) upon receipt of the *paternity* blood test results, if the alleged father continues to deny paternity, the alleged father may request the department to refer the matter to district court for a determination of paternity.

~~(6)~~*(7)* The alleged father may file a written denial of paternity with the department within 20 days after service of the notice of paternity determination.

~~(7)~~*(8)* When there is more than one alleged father of a child, the department may serve a notice of paternity determination on each alleged father in the same consolidated proceeding or in separate proceedings. Failure to serve notice on an alleged father does not prevent the department from serving notice on any other alleged father of the same child."

Section 2. Section 40-5-233, MCA, is amended to read:

"**40-5-233. Establishment of paternity — administrative hearing — subpoena — compulsory blood testing.** (1) When the department receives a timely written denial of paternity, it may order the alleged father to appear for an administrative hearing. The hearing may be conducted by teleconferencing methods. If the testimony and other supplementary evidence demonstrate a reasonable probability that the alleged father had sexual intercourse with the child's mother during the probable time of the child's conception or if the evidence shows a probable existence of a presumption under 40-6-105, the department may issue a subpoena ordering the alleged father to submit to paternity blood testing. A reasonable probability of sexual intercourse during the possible time of conception may be established by affidavit of the child's mother.

(2) When there is reasonable cause to suggest that a blood test sample of a person submitting to a blood test was not the sample of the alleged father, mother, or child, an additional hearing may be held. The scope of the hearing is limited to questions involving the blood drawing or the chain of custody at the blood drawing site. The hearing officer may order retesting of any party.

~~(2)~~*(3)* If the department does not receive a timely written denial of paternity or if an alleged father fails to appear at a scheduled hearing or for a scheduled paternity blood test, the department may enter an order declaring the alleged father the legal father of the child. The order will take effect within 10 days after entry of the default unless the alleged father before the 10th day presents good cause for failure to make a timely denial or for failure to appear at the hearing or to undergo paternity blood testing. The department may not enter an order under this section if there is more than one alleged father unless the default applies to only one of them and all others have been excluded by the results of paternity blood testing. An order issued under the provisions of this section may be set aside as provided in 40-5-235(3).

~~(3)~~*(4)* If the rights of others and the interests of justice so require, the department may apply to any district court under the provisions of 2-4-104 for an order compelling an alleged father to submit to paternity blood testing. The court shall hear the matter as expeditiously as possible. If the court finds reasonable cause to believe that the alleged father is the natural or presumed father of the child, the court shall enter an order compelling the alleged father to submit to a paternity blood test. As provided in subsection (1), reasonable cause may be established by affidavit of the child's mother."

Section 3. Section 40-5-234, MCA, is amended to read:

"**40-5-234. Paternity blood tests — use of expert's affidavit — effect of test results — *records — presumption.*** (1) The department shall appoint an expert who is qualified in examining genetic markers to conduct any paternity blood test required by 40-5-233. ~~If the issue of paternity is referred~~

HeinOnline -- 1995 vol. I 210 1995

~~to the district court under 40-5-236, the expert's completed and certified report of the results and conclusions of a paternity blood test is admissible as evidence without additional testimony by the expert if the laboratory in which the expert performed the test is accredited for parentage testing by the American association of blood banks. Accreditation may be established by verified statement or reference to published sources.~~

(2) An affidavit documenting the chain of custody of any blood specimen is admissible to establish ~~such~~ *the* chain of custody.

(3) If the scientific evidence resulting from a *paternity* blood test:

(a) conclusively shows that the alleged father could not have been the natural father, the question of paternity ~~shall~~ *must* be resolved accordingly. A finding under this subsection is sufficient to overcome a presumption created by 40-6-105.

(b) shows a 95% or higher statistical probability of paternity, the alleged father is presumed to be the natural father of the child. This presumption may be rebutted in an appropriate action in district court by a preponderance of the evidence.

(c) does not exclude the alleged father and shows less than a 95% statistical probability of paternity, the test results may be weigbed in conjunction with other evidence to establish paternity.

(4) The department may enter an order of nonpaternity based on a blood test exclusion and may order the department of health and environmental sciences to prepare an amended or substitute birth certificate.

(5) The department may enter in the support order registry established in 40-5-271 a written finding of any paternity presumption created by paternity blood test results.

(6) A presumption of paternity established under this section is a sufficient basis for establishing a support order."

Section 4. Section 40-5-236, MCA, is amended to read:

"40-5-236. Referral of paternity issue to district court — record — parties — exclusion of other matters — fees. (1) If the scientific evidence resulting from a *paternity* blood test does not exclude the alleged father and ~~he~~ *the alleged father* continues to deny paternity, *the alleged father shall file a written objection with the department within 20 days after service of the paternity blood test results. Upon receipt of the written objection,* the department shall refer the matter to the district court for a determination based on the contents of the administrative hearing record and any further evidence that may be produced at trial. Except as otherwise provided in 40-5-231 through 40-5-237, proceedings in the district court ~~shall~~ *must* be conducted pursuant to Title 40, chapter 6, part 1.

(2) The administrative record must include:

(a) a copy of the notice of paternity determination and the return of service ~~thereof~~ *of the notice*;

(b) the alleged father's written denial of paternity, if any;

(c) the transcript of the administrative hearing;

(d) the paternity blood test results and any report of an expert based on the results; and

(e) any other relevant information.

(3) Upon filing of the record with the district court, the court acquires jurisdiction over the parties as if they had been served with a summons and complaint. The department shall serve written notice upon the alleged father, as provided in 40-5-231(2), that the issue of paternity has been referred to the district court for determination.

(4) In a proceeding in the district court, the department shall appear on the issue of paternity only. The court may not appoint a guardian ad litem for the child unless the court in its discretion determines that ~~such~~ an appointment is necessary and in the best interest of the child. Neither the mother nor the child is a necessary party, but either may testify as a witness.

(5) No other matter may be joined with an action to determine the existence or nonexistence of the parent and child relationship under this section. The parties shall institute an independent action to address other issues, including visitation and custody.

(6) Except as provided in 25-10-711, the department is not liable for attorney fees, including fees for attorneys appointed under 40-6-119, or fees of a guardian ad litem appointed under 40-6-110."

Section 5. Section 40-5-237, MCA, is amended to read:

"40-5-237. District court paternity proceedings — objection to tests — additional tests — *expert's report* — *admissibility of evidence*. (1) ~~If~~ *In a matter referred to the district court, if* an alleged father objects to the procedures for or the results of a paternity blood test, ~~he~~ *the alleged father* shall file a written objection with the court within 20 days after service of the notice required by 40-5-236(3). The court shall order an additional paternity blood test if a written objection is *timely* filed or at the request of the department. An additional test must be performed by the same or another expert who is qualified in paternity blood testing. Failure of the alleged father to make a timely challenge is considered a waiver of any defense to the test results or test procedures, including the chain of custody.

(2) If an objection to the paternity blood test is not timely filed, the paternity blood test expert's completed and certified report of the results and conclusions of a paternity blood test is admissible as evidence without additional foundation testimony or other proof of authenticity and accuracy if the laboratory in which the expert performed the test is accredited for parentage testing by the American association of blood banks. Accreditation may be established by verified statement or reference to published sources. This subsection does not limit the right of a party to contest the identity of persons submitting to testing.

~~(2)~~*(3)* In any hearing before the court or at trial, testimony relating to sexual intercourse of the mother with any person who has been excluded from

consideration as a possible father of the child involved by the results of a paternity blood test is inadmissible in evidence.

~~(3)~~*(4)* When a paternity blood test excludes an alleged father from possible paternity, the test ~~shall be~~ *is* conclusive evidence of nonpaternity of the alleged father for all purposes in the district court."

Section 6. Section 40-6-102, MCA, is amended te read:

"**40-6-102. ~~Parent and child relationship defined~~ *Definitions*.** As used in this part, *the following definitions apply:*

(1) "Blood test" means a test that demonstrates through examination of genetic markers either that an alleged father is not the natural father of a child or that there is a probability that an alleged father is the natural father of a child. A blood test may include but is not limited to the human leukocyte antigen test and DNA probe technology.

(2) "~~parent~~ *"Parent* and child relationship" means the legal relationship existing between a child and ~~his~~ *the child's* natural or adoptive parents incident to which the law confers or imposes rights, privileges, duties, and obligations. Section 7. Section 40-6-105, MCA, is amended to read:

(b) before the child's birth, ~~he~~ *the person* and the child's natural motber have attempted to marry each other by a marriage solemnized in apparent compliance with law, although the attempted marriage is or could be declared invalid, and:

(i) if the attempted marriage could be declared invalid only by a court, the child is born during the attempted marriage or within 300 days after its termination by death, annulment, declaration of invalidity, or divorce; or

(c) after the child's birth, ~~he~~ *the person* and the child's natural mother bave married or attempted to marry each other by a marriage solemnized in apparent compliance with law, although the attempted marriage is or could be declared invalid, and:

HeinOnline -- 1995 vol. I 213 1995

(i) ~~he has acknowledged~~ *the child's mother and the child's alleged father have acknowledged the alleged father's* ~~his~~ paternity of the child in writing *in accordance with subsection (1)(e) and the acknowledgment is* filed with the department of health and environmental sciences or with the district court for the county where ~~he~~ *the person* resides *or for any county where the child support enforcement division of the department of social and rehabilitation services maintains a regional office*; ~~or~~

(ii) with ~~his~~ *the person's* consent, ~~he~~ *the person* is named as the child's father on the child's birth certificate; or

(iii) ~~he~~ *the person* is obligated to support the child under a written voluntary promise or by court order;

(d) while the child is under the age of majority, ~~he~~ *the person* receives the child into ~~his~~ *the person's* home and openly ~~holds out~~ *represents* the child *to be* ~~as his~~ *the person's* natural child; ~~or~~

(e) ~~he acknowledges~~ *the child's mother and the child's alleged father acknowledge the alleged father's* ~~his~~ paternity of the child in a ~~writing~~ *paternity acknowledgment form that is provided by the department of social and rehabilitation services and* filed with the department of health and environmental sciences or with the district court of the county where ~~he~~ *the person* resides~~, which court or department shall promptly inform the mother of the filing of the acknowledgment, and she does not dispute the acknowledgment within a reasonable time after being informed thereof, in a writing filed with the department of health and environmental sciences or with the district court of the county where the acknowledgment was filed~~ *or for any county where the child support enforcement division of the department of social and rehabilitation services maintains a regional office. The department of health and environmental sciences or the district court shall accept and file the completed form. As a part of a voluntary acknowledgment process, the department of social and rehabilitation services shall provide information to the parents regarding the rights and responsibilities of acknowledging paternity.* If another ~~man~~ *person* is presumed under this section to be the child's father, acknowledgment may be effected only with the written consent of the presumed father or after the presumption has been rebutted.

(f) the scientific evidence resulting from a blood test, whether ordered by a court or administrative agency of competent jurisdiction or agreed to by the parties, shows a 95% or higher statistical probability of paternity.

(2) An acknowledgment is binding on a parent who executes it, whether or not the parent is a minor.

~~(2)~~*(3)* A presumption under this section may be rebutted in an appropriate action by a preponderance of the evidence.

(4) A presumption of paternity established under this section is a sufficient basis for establishing a support order."

Section 8. Section 40-6-115, MCA, is amended to read:

"40-6-115. Civil action. (1) An action under this part is a civil action governed by the rules of civil procedure. The mother of the child and the alleged

father are competent to testify and may be compelled to testify. Sections 40-6-111(2), 40-6-112, and 40-6-113 apply to all actions brought under this part.

(2) Testimony relating to sexual access to the mother by an unidentified ~~man~~ *person* at any time or by an identified ~~man~~ *person* at a time other than the probable time of conception of the child is inadmissible in evidence, unless offered by the mother.

(3) In an action against an alleged father, evidence offered by ~~him~~ *the alleged father* with respect to a ~~man~~ *person* who is not subject to the jurisdiction of the court concerning ~~his~~ sexual intercourse with the mother at or about the probable time of conception of the child is admissible in evidence only if the alleged father has undergone and made available to the court blood tests, the results of which do not exclude the possibility of ~~his~~ *the alleged father's* paternity of the child. A ~~man~~ *person* who is identified and is subject to the jurisdiction of the court ~~shall~~ *must* be made a defendant in the action.

(4) If a blood test has been initially ordered under this part and a party objects to the blood test results, the objection must be filed within 20 days after service of the blood test results. If an objection is filed, the court shall order an additional blood test. If no objection is made, the test results are admissible as evidence of paternity without the need for foundation testimony or other proof of authenticity or accuracy. This subsection does not limit the right of a party to contest the identity of persons submitting to testing.

(5) If the alleged father fails to answer or to appear at a scheduled hearing or for a scheduled blood test, the district court shall enter an order declaring the alleged father the legal father of the child. The district court may not enter an order under this section if there is more than one alleged father unless the default applies to only one of them and all others have been excluded by the results of blood testing."

Section 9. Section 40-6-117, MCA, is amended to read:

"40-6-117. Enforcement of judgment or order. (1) If existence of the father and child relationship is declared or paternity or a duty of support has been acknowledged or adjudicated under this part or under prior law, the court may order support payments to be made to the mother, the clerk of the court, or a person, corporation, or agency designated to administer them for the benefit of the child under the supervision of the court.

(2) Full faith and credit must be given to a determination of paternity made by any other state, whether presumed by law, established through voluntary acknowledgment, or established by administrative or judicial processes.

~~(2)~~*(3)* Willful failure to obey the judgment or order of the court is a civil contempt of the court. All remedies for the enforcement of judgments apply.

~~(3)~~*(4)* (a) A district court judgment, decree, or order that establishes or modifies a child support obligation must include a provision requiring the child support to be paid to:

(i) the legal custodian of the minor child;

(B) the court for the benefit of the minor child;

(iii) any other person or agency designated as caretaker of the minor child by agreement of the legal custodian; or

(iv) any assignee or other person, organization, or agency authorized to receive or collect child support.

Section 10. Section 40-6-118, MCA, is amended to read:

(b) provide written information, furnished by the department *of social and rehabilitation services*, describing the rights and responsibilities of ~~parentage~~ *paternity*, the benefits of having a child's paternity established, and the child's right to receive support; and

(c) forward a copy of an acknowledgment signed by the mother and the father to the department.

(2) The hospital, institution, or midwife is entitled to reimbursement for reasonable costs of obtaining an acknowledgment. CHAPTER NO. 71

[SB 91]

AN ACT AUTHORIZING THE DEPARTMENT OF TRANSPORTATION TO ENTER INTO CONTRACTS WITH PRIVATE PARTIES TO ACT AS AGENTS OF THE DEPARTMENT IN ISSUING PERMITS FOR EXCESS SIZE AND WEIGHT OF VEHICLES; PROVIDING ANNUAL PERMITS AND FEES FOR OVERWEIGHT VEHICLES; AND AMENDING SECTIONS 61-10-121 AND 61-10-125, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 61-10-121, MCA, is amended to read:

"61-10-121. Permits for excess size and weight — *agents*. (1) Upon application and with good cause shown, the department of transportation, *or its agent under subsection (3),* and local authorities in their respective jurisdictions may issue telephonically or in writing a special permit authorizing the applicant to operate or move a vehicle, combination of vehicles, load, object, or other thing of a size or weight exceeding the maximum specified in 61-10-101 through 61-10-110 upon a highway under the jurisdiction of and for the maintenance of which the body granting the permit is responsible. However, only the department may issue permits for movement of a vehicle or combination of vehicles carrying built-up or reducible loads in excess of 9 feet in width or exceeding the length, height, or weight specified in 61-10-101 through 61-10-110. This permit must be issued in the public interest. A carrier receiving this permit must have public liability and property damage insurance for the protection of the traveling public as a whole. A permit may not be issued for a period greater than the period for which the GVW license is valid, including grace periods, as provided in this title. Owners of vehicles licensed in other jurisdictions may, at the discretion of the department, purchase permits to expire with their registration. A license required by the state governs the issuance of a special permit. The department may issue to dealers in implements of husbandry and self-propelled machinery oversize permits, which may be transferred from unit to unit by the dealer, for the fee set forth in 61-10-124. These oversize permits may not restrict dealers in implements of husbandry and self-propelled machinery from traveling on a Saturday or Sunday and expire on December 31 of each year, with no grace period. For the purposes of this section, a dealer in implements of husbandry or self-propelled machinery must be a resident of the state. A post-office box number is not a permanent address under this section.

(2) The applicant for a special permit shall specifically describe the powered vehicle or towing vehicle and generally describe the type of vehicle, combination of vehicles, load, object, or other thing to be operated or moved and the particular state highways over which the vehicle, combination of vehicles, load, object, or other thing is to be moved and whether the permit is required for a single trip or for continuous operation.

HeinOnline -- 1995 vol. I 217 1995

(3) The department may enter into a contract with a private party to act as an agent of the department for the purpose of issuing, in writing, a special permit allowed under this section."

Section 2. Section 61-10-125, MCA, is amended to read:

"61-10-125. Other fees. (1) There is charged for a single trip permit for a load that is over the gross allowable load provided for by the formula in 61-10-107(1) but that does not exceed axle limits set forth in 61-10-107(1):

(a) $10 for distances to and including 100 miles;

(b) $30 for distances from 101 to 199 miles; and

(c) $50 for distances over 200 miles traveled.

(2) *(a)* There is charged a fee of:

(i) $200 for a term permit for a load that is in excess of the limite set forth in 61-10-107(1) but that does not exceed a total of 5,000 pounds in excess axle weight.;

(ii) $500 for a term permit for a load that is in excess of the limits set forth in 61-10-107(1) but that does not exceed a total of 10,000 pounds in excess axle weight, with no single axle exceeding 5,000 pounds in excess axle weight;

(iii) $750 for a term permit for a load that is in excess of the limits set forth in 61-10-107(1) but that does not exceed a total of 15,000 pounds in excess axle weight, with no single axle exceeding 5,000 pounds in excess axle weight;

(iv) $1,000 for a term permit for a load that is in excess of the limits set forth in 61-10-107(1) but that does not exceed a total of 20,000 pounds in excess axle weight, with no single axle exceeding 5,000 pounds in excess axle weight and no tandem axle exceeding 15,000 pounds in excess axle weight.

(b) The fees provided in subsection (2)(a) are annual fees but may be prorated on a quarterly basis and may be paid quarterly, semiannually, or annually. However, if the fee is paid other than annually, there is an additional fee of $10 each time a fee is paid.

(c) A permit issued under this subsection (2) is valid for a period of no less than 1 calendar quarter and no more than 1 calendar year.

(d) The department or its agent may not issue a term permit for loads that exceed 10,000 pounds in excess axle weight unless the person applying for the term permit has obtained approval from the department, through a weight analysis, for the configuration of the vehicle.

(3) There is charged for a permit to move a load that exceeds the single axle, tandem axle, or axle group limits set forth in 61-10-107(1) the following fee based upon the sum of excess in axle or axle group weights:

HeinOnline -- 1995 vol. I 218 1995

(4) For purposes of subsection (3):

(a) mileage must be rounded off in units of 25 miles and mileage in excess of a 25-mile increment must be assessed at the next higher 25-mile increment; and

(b) weight must be rounded off in 5,000-pound increments and weight in excess of a 5,000-pound increment must be assessed at the next higher 5,000-pound increment.

[HB 96]

AN ACT EXEMPTING VEHICLES OWNED BY SPECIAL DISTRICTS FROM VEHICLE REGISTRATION FEES, THE WEED CONTROL FEE, AND THE NEW CAR SALES TAX; ALLOWING VEHICLES OWNED BY SPECIAL DISTRICTS TO HAVE EXEMPT LICENSE PLATES; AMENDING SECTIONS 61-3-321, 61-3-332, 61-3-502, AND 61-3-510, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

WHEREAS, the Legislature has specifically exempted vehicles owned by special districts from various vehicle fees because it considers the use of taxpayer money to pay taxes to other tax entities to be counter to good government; and

WHEREAS, a private business that competes with governmental entities is required to pay fees that the governmental entity does not have to pay, yet when comparing costs of services provided by government and by private business, this consideration is often not factored into the equation.

THEREFORE, the Legislature recognizes the costs and consequences of this situation and encourages all parties, when comparing private versus government costs, to consider costs that are incurred by private business but not by government.

Section 2. Section 61-3-332, MCA, is amended to read:

"**61-3-332. Number plates.** (1) A motor vehicle that is driven upon the streets or highways of Montana must display both front and rear number plates, bearing the distinctive number assigned *to* the vehicle. The number plates are in 10 series: one series for owners of motorcars, one for owners of motor vehicles of the motorcycle or quadricycle type, one for trailers, one for trucks, one for dealers in vehicles of the motorcycle or quadricycle type that bear the distinctive letters "MCD" or the letters "MC" and the word "DEALER", one for franchised dealers in new motorcars (including trucks and trailers) or new and used motorcars (including trucks and trailers) that bear the distinctive letter "D" or the word "DEALER", one for dealers in used motorcars only (including used trucks and trailers) that bear the distinctive letters "UD" or the letter "U" and the word "DEALER", one for dealers in trailers and/or semitrailers (new or used) that bear the distinctive letters "DTR" or the letters "TR" and the word "DEALER", one for dealers in recreational vehicles that bear the distinctive letters "RV" or the letter "R" and the word "DEALER", and one for special license plates. All markings for the various kinds of dealers' plates must be placed on tho number plates assigned to the dealer, in the position that the department designates.

(2) All number plates for motor vehicles must be issued for a minimum period of 4 years, bear a distinctive marking, and be furnished by the state. In years when number plates are not issued, the department shall provide nonremovable stickers bearing appropriate registration numbers that must be affixed to the license platos in use.

(3) Subject te the provisions of this section, the department shall create a new design for number plates as provided in this section.

Registration plates must be treated with a reflecterized background material according to specifications prescribed by the department.

(5) The distinctive registration numbers must begin with a number one or with a letter-number combination, such as "A 1" or "AA 1", or any other similar combination of letters and numbers. The distinctive registration number or letter-number combination assigned te the vehicle must appear on the plate

preceded by the number of the county and appearing in horizontal order on the same horizontal baseline. The dimensions of the numerals and letters must be determined by the department, and all county and registration numbers must be of equal height.

(6) For the use of tax-exempt motor vehicles, in addition to the markings provided in this section, number plates must bear the following distinctive markings:

(a) For vehicles owned by the state, the department may designate the prefix number for the various state departments. Distinctive registration numbers for plates assigned to moter vehicles of each of the counties in the state and those of the municipalities and ~~school~~ *special* districts ~~situated within each of the counties and those of the irrigation districts~~ that obtain plates within each county must begin with number one and be numbered consecutively. Because these number plates are of a permanent nature, they are subject to replacement by the department only when the physical condition of the number plates requires it and a year number may not be displayed on the number plates.

(7) On all number plates assigned to motor vehicles of the truck and trailer type, other than tax-exempt trucks and tax-exempt trailers, there must appear the letter "T" or the word "TRUCK" on plates assigned to trucks and the letters "TR" or the word "TRAILER" on plates assigned to trailers and housetrailers. The letters "MC" or the word "CYCLE" must appear on plates assigned to vehicles of the motorcycle or quadricycle type.

(8) Number plates issued to a passenger car, truck, trailer, or vehicle of the motorcycle or quadricycle type may be transferred only te a replacement passenger car, truck, trailer, or motercycle- or quadricycle-type vehicle. (3) The permit program administered by the department pursuant to this section must include the following:

(a) requirements and procedures for permit applications, including standard application forms;

(b) requirements and procedures for submittal of information necessary to determine the location, quantity, and type of emissions;

(c) procedures for public notice and opportunity for comment or public hearing, as appropriate;

(j) requirements and procedures for issuing a single permit authorizing emissions from similar operations at multiple temporary locations, which permit may include conditions necessary to ensure compliance with the requirements of this chapter at all authorized locations and a requirement that the owner or operator notify the department in advance of each change in location.

(4) This section does not restrict the board's authority to adopt regulations providing for a single air quality permit system.

(5) The department may, for good cause shown, waive or shorten the time required for filing the appropriate applications.

(6) The department shall require that applications for permits be accompanied by any plans, specifications, and other information *that* it considers necessary.

(7) An application is not considered filed until the applicant has submitted all fees required under 75-2-220 and all information and completed application forms required pursuant to subsections (2), (3), and (6) *of this section*. If the

department fails to notify the applicant in writing within 30 days after the purported filing of an application that the application is incomplete and fails to list the reasons why the application is considered incompleto, the application is considered filed as of the date of the purported filing.

(8) (a) If an application for a permit requires the preparation of an environmental impact statement under the Montana Environmental Policy Act, Title 75, chapter 1, parts 1 through 3, the department shall notify the applicant in writing of the approval or denial of the application within:

(i) 180 days after the department's receipt of a filed application, as provided in subsection (7), if the department prepares the environmental impact statement; or

(d) Failure by the department to act in a timely manner does not constitute approval or denial of the application. This does not limit or abridge the right of any person to seek available judicial remedies te require the department to act in a timely manner.

(9) When the department approves or denies the application for a permit under this section, a person who is jointly or severally adversely affected by the department's decision may request a hearing before the board. The contested case provisions of the Montana Administrative Procedure Act, Title 2, chapter 4, part 6, apply to a hearing before the board under this subsection.

(10) The department's decision on the application is not final unless 15 days have elapsed from the date of the decision and there is no request for a hearing under this section. (n) a person who performs services as a petroleum land professional. As used in this subsection, a "petroleum land professional" is a person who:

(i) is engaged primarily in negotiating for the acquisition or divestiture of mineral rights or in negotiating a business agreement for the exploration or development of minerals;

(ii) is paid for services that are directly related to the completion of a contracted specific task rather than on an hourly wage basis; and

(iii) performs all services as an independent contractor pursuant to a written contract.

(3) (a) A sole proprietor or a working member of a partnership who represents to the public that the person is an independent contractor shall elect to be bound personally and individually by the provisions of compensation plan No. 1, 2, or 3 but may apply to the department for an exemption from the Workers' Compensation Act.

(b) The application must be made in accordance with the rules adopted by the department. The department may deny the application only if it determines that the applicant is not an independent contractor.

(c) When an application is approved by the department, it is conclusive as to the status of an independent contractor and precludes the applicant from obtaining benefits under this chapter.

(d) When an election of an exemption is approved by the department, the election remains effective and the independent contractor retains the status as an independent contractor until the independent contractor notifies the department of any change in status and provides a description of present work status.

(e) If the department denies the application for exemption, the applicant may contest the denial by petitioning for review of the decision by an appeals referee in the manner provided for in 39-51-1109. An applicant dissatisfied with the decision of the appeals referee may appeal the decision in accordance with the procedure established in 39-51-2403 and 39-51-2404.

(4) (a) A private corporation shall provide coverage for its officers and other employees under the provisions of compensation plan No. 1, 2, or 3. However,

pursuant to rules *that* the department promulgates and subject in all cases to approval by the department, an officer of a private corporation may elect not to be bound as an employee under this chapter by giving a written notice, on a form provided by the department, served in the following manner:

(i) if the employer has elected to be bound by the provisions of compensation plan No. 1, by delivering the notice to the board of directors of the employer and to the department; or

(ii) if the employer has elected to be bound by the provisions of compensation plan No. 2 or 3, by delivering the notice to the board of directors of the employer, to the department, and to the insurer.

(b) If the employer changes plans or insurers, the officer's previous election is not effective and the officer shall again serve notice as provided if the officer elects not to be bound.

(c) The appointment or election of an employee as an officer of a corporation for the purpose of excluding the employee from coverage under this chapter does not entitle the officer to elect not to be bound as an employee under this chapter. In any case, the officer shall sign the notice required by subsection (4)(a) under oath or affirmation and is subject to the penalties for false swearing under 45-7-202 if the officer falsifies the notice.

(5) Each employer shall post a sign in the workplace at the locations where notices to employees are normally posted, informing employees about the employer's current provision of compensation insurance. A workplace is any location where an employee performs any work-related act in the course of employment, regardless of whether the location is temporary or permanent, and includes the place of business or property of a third person while the employer has access to or control over the place of business or property for the purpose of carrying on the employer's usual trade, business, or occupation. The sign must be provided by the department, distributed through insurers or directly by the department, and posted by employers in accordance with rules adopted by the department. An employer who purposely or knowingly fails to post a sign as provided in this subsection is subject to a $50 fine for each citation."

[SB 269]

AN ACT ADOPTING THE INTERSTATE WILDLIFE VIOLATOR COMPACT; AND PROVIDING AUTHORITY TO IMPLEMENT THE COMPACT TO THE DEPARTMENT OF FISH, WILDLIFE, AND PARKS.

Be it enacted by the Legislature of the State of Montana:

Section 1. Compact adopted — text. The Interstate Wildlife Violator Compact is entered into by this state, with all other states legally joining therein, in the form substantially as follows:

INTERSTATE WILDLIFE VIOLATOR COMPACT

ARTICLE I

Findings, Declaration of Policy, and Purpose

(1) The participating states find that the following provisions apply:

(a) Wildlife resources are managed in trust by the respective states for the benefit of all residents and visitors.

(b) The protection of the wildlife resources of a state is materially affected by the degree of compliance with stato statutes, laws, ordinances, regulations, and administrative rules relating to the management of such resources.

(c) The preservation, protection, management, and restoration of wildlife contributes immeasurably to the aesthetic, recreational, and economic aspects of such natural resources.

(d) Wildlife resources are valuable without regard to political boundaries; therefore, every person should be required to comply with wildlife preservation, protection, management and restoration laws, ordinances, regulations, and administrative rules of the participating states as a condition precedent to the continuance or issuance of any license to hunt, fish, trap, or possess wildlife.

(e) Violation of wildlife laws interferes with the management of wildlife resources and may endanger the safety of persons and property.

(f) The mobility of many wildlife law violaters necessitates the maintenance of channels of communication among the various states.

(g) In most instances, a person who is cited for a wildlife violation in a state otber than that person's own state:

(i) is required to post collateral or a bond to secure appearance for a trial at a later date;

(ii) is taken into custody until the collateral or bond is posted; or

(iii) is taken directly to court for an immediate appearance.

(h) The purpose of the enforcement practices set forth in subsection (1)(g) of this article is to ensure compliance with the terms of a wildlife citation by the cited person who, if permitted to proceed after receiving the citation, could return to the person's home state and disregard the person's duty under the terms of the citation.

(i) In most instances, a person receiving a wildlife citation in that person's home stato is permitted to accept the citation from the officer at the scene of the violation and immediately proceed after agreeing or being instructed to comply with the terms of the citation.

(j) The practices described in subsection (1)(g) of this article cause unnecessary inconvenience and, at times, a hardship for the person who is unable at the time to post collateral, furnish a bond, stand trial, or pay a fine and is thus compelled to remain in custody until some alternative arrangement is made.

(k) The enforcement practices described in subsection (1)(g) of this article consume an undue amount of law enforcement time.

(2) It is the policy of the participating states te:

(a) promote compliance with the statutes, laws, ordinances, regulations, and administrative rules relating to management of wildlife resources in their respective states;

(b) recognize the suspension of wildlife license privileges of any person whose license privileges have been suspended by a participating state and treat such suspension as if it had occurred in their state;

(c) allow a violator, except as provided in subsection (2) of Article III, to accept a wildlife citation and proceed without delay, whether or not a resident of the state in which the citation was issued, provided that the violator's home state is party to this compact;

(d) report to the appropriate participating state, as provided in the compact manual, any conviction recorded against any person whose home state was not the issuing state;

(e) allow the home state to recoguize and treat convictions recorded against its residents, which convictions occurred in a participating state, as though they occurred in the home state;

HeinOnline -- 1995 vol. I 337 1995

(f) extend cooperation to its fullest extent among the participating states for enforcing compliance with the terms of a wildlife citation issued in one participating state to a resident of another participating state;

(g) maximize effective use of law enforcement personnel and information;

(h) assist court systems in the efficient disposition of wildlife violations.

(3) The purpose of this compact is to:

(a) provide a means through which participating states may join in a reciprocal program to effectuate the policies enumerated in subsection (2) of this article in a uniform and orderly manner;

(b) provide for the fair and impartial treatment of wildlife violators operating within participating states in recognition of the violator's right to due process and the sovereign status of a participating state.

Section 6. Section 46-18-101, MCA, is amended to read:

"46-18-101. Correctional policy. (1) It is the purpose of this section to declare the correctional policy of the state of Montana. Laws for the punishment of crime and for the rehabilitation of the convicted are drawn to implement the policy established by this section.

(2) The correctional policy of the state of Montana is to protect society by preventing crime through punishment and rehabilitation of the convicted. The legislature finds that an individual is responsible for and must be held accountable for the individual's actions, *including, whenever possible, the restoration of all pecuniary losses sustained by a victim of the offense.* Corrections laws and programs must be implemented to impress upon each individual the responsibility for obeying the law. To achieve this end, it is the policy of the state to assure that prosecution of criminal offenses occurs whenever probable cause exists and that punishment of the convicted is certain, timely, and consistont. Furthermore, it is the state's policy that persons convicted of a crime be dealt with in accordance with their individual charactoristics, circumstances, needs, and potentialities. *Finally, it is the policy of the state to recognize that the interests of crime victims should be considered so that, to the extent possible, victims of crime may be protected from threat of future harm by the offender.*

(3) (a) Sentences imposed upon those convicted of crime must be based primarily on the following:

(i) the crime committed;

(ii) the prospects of rehabilitation of tbe offender;

(iii) tbe circumstances under which the crime was committed;

(iv) the criminal history of the offender; and

(v) consideration of alternatives to imprisonment of the offender in the state prison or the women's correctional center.

(b) Dangerous offenders who habitually violate the law and victimize the public must be removed from society and correctively treated in custody for long terms, as needed. Other offenders must be dealt with by probation, suspended sentence, community corrections, community service, or fine whenever such disposition appears practicable and not detrimental to the needs of public safety and the welfare of the individual. Whenever possible, sentences for offenders must include restitution to the victim, payment of costs as provided in 46-18-232, and payment of costs of court-appointed counsel as provided in 46-8-113.

(4) It is also the policy of the stato that alternatives to imprisonment, such as community corrections, should be used whenever appropriate for nonviolent felony offenders in order to provide them opportunities to gain work experience, to learn life skills, to obtain education and training, or to participate in other activities that will reduce recidivism and enable offenders to become productive members of society."

Section 7. Section 46-18-112, MCA, is amended to read:

"**46-18-112. Content of presentence investigation report.** (1) Whenever an investigation is required, the probation officer shall promptly inquire into and report upon:

(a) the defendant's characteristics, circumstances, needs, and potentialities;

(b) the defendant's criminal record and social history;

(c) the circumstances of the offense;

(d) the time of the defendant's detention for the offenses charged; ~~and~~

(e) the harm caused, as a result of the offense, to the victim, the victim's immediate family, and the community*; and*

(f) the victim's pecuniary loss, if any. The officer shall make a reasonable effort to confer with the victim to ascertain whether the victim has sustained a pecuniary loss. If the victim is not available or declines to confer, the officer shall record that information in the report.

(2) All local and state mental and correctional institutions, courts, and law enforcement agencies shall furnish, upon request of the officer preparing a presentence investigation, the defendant's criminal record and other relevant information.

(3) The court may, in its discretion, require that the presentence investigation report include a physical and mental examination of the defendant.

~~(4) If applicable, the court may require the officer to inquire into the victim's pecuniary loss and make a restitution report to the court as provided by law.~~"

Section 8. Section 46-18-113, MCA, is amended to read:

"**46-18-113. Availability of presentence investigation report.** (1) All presentence investigation reports must be a part of the court record but may not be opened for public inspection. A copy of the presentence investigation report must be provided to the prosecution, the defendant and the defendant's attorney, and the agency or institution to which the defendant is committed. *The prosecutor may disclose the contents of the presentence report to a victim of the offense.*

(2) The court having jurisdiction of the case may permit other access te the presentence investigation report as it considers necessary."

Section 9. Section 46-18-115, MCA, is amended to read:

"**46-18-115. Sentencing hearing.** Before imposing sentence or making any other disposition upon acceptance of a plea or upon a verdict or finding of guilty, the court shall conduct a sentencing hearing, without unreasonable delay, as follows:

(1) The court shall afford the parties an opportunity to be heard on any matter relevant to the disposition, including the applicability of sentencing enhancement provisions, mandatory minimum sentences, persistent felony offender status, or an exception to these matters.

(2) If there is a possibility of imposing the death penalty, the court shall hold a hearing as provided by 46-18-301.

(3) Except as provided in 46-11-701 and 46-16-120 through 46-16-123, the court shall address the defendant personally to ascertain whether the defendant wishes to make a statement and to present any information in mitigation of punishment or reason why the defendant should not be sentenced. If the defendant wishes to make a statement, the court shall afford the defendant a reasonable opportunity to do so.

(4) (a) The court shall permit the victim to present a statement concerning the effects of the crime on the victim, the circumstances surrounding the crime, the manner in which the crime was perpetrated, and the victim's opinion regarding appropriate sentence. At the victim's option, the victim may present the statement in writing before the sentencing hearing or orally under oath at the sentencing hearing, or both.

(b) The court shall give copies of any written statements of the victim to the prosecutor and the defendant prior to imposing sentence.

(c) The court shall consider the victim's statement along with other factors. However, if the victim's statement includes new material facts upon which the court intends to rely, the court shall allow the defendant adequate opportunity to respond and may continue the sentencing hearing if necessary.

~~(4)~~*(5)* The court shall impose sentence or make any other disposition authorized by law.

~~(5)~~*(6)* In felony cases, the court shall specifically state all reasons for the sentence, including restrictions, conditions, or enhancements imposed, in open court on the record and in the written judgment."

ARTICLE II

IMPLEMENTATION

A. Abstract:

Concurrent with this Compact, the parties prepared an Abstract, a copy of which is referenced as Appendix 2, which is a specific listing of all of the United States' water rights for Bighorn Canyon National Recreation Area and the Little Bighorn Battlefield National Monument that are described in this Compact and quantified in accordance with this Compact. The parties prepared the Abstract to comply with the requirements for a final decree as set forth in 85-2-234(4) and (7), MCA, and in an effort to assist the state courts in the process of entering decrees accurately and comprehensively reflecting the rights described in this Compact. The rights specified in the Abstract are subject to the terms of the Compact. In the event of a discrepancy between a right listed in the Abstract and that same rigbt as quantified in accordance with Articles II and III of the Compact, the parties intend that the quantification in accordance with Articles II and III of this Compact shall be reflected in a final decree.

B. Method of Allocation of Water on Category 3 and 4 Streams and of Determining Rights Subject to Curtailment on the Little Bighorn River and its Tributaries:

This section explains the method of quantification of the reserved instream flow water rights of tho United States for Category 3 and 4 streams and the metbod of calculating the quantity of consumptive use pursuant to state law

within a basin to which the United States agrees to subordinate its reserved instream flow water rights. The method set forth in this section shall be used to determine whether the limits on consumptive use pursuant to state law set forth in Article III have been reached and whether a water right on the Little Bighorn River and its tributaries upstream from the LBBNM shall be subject to curtailment to satisfy the reserved instream flow water right for LBBNM. Addition to the Abstract of a reserved instream flow water right on a stream inadvertently omitted by the parties or reclassification of a stream due to a water right recognized under state law and inadvertently omitted by the parties shall be consistent with this section and shall not be deemed a modification of this Compact.

1. Allocation to Instream Flow:

With the exception of the reserved instream flow rights for LBBNM, the allocation of water to instream flow on Category 3 and 4 streams is arrived at using tbe following method as explained in general terms:

a. The United States' reserved water right for instream flow includes the entire flow of that stream within the State of Montana at tbe point where the stream flows over or forms the boundary of the specified reserved land after: (1) all consumptive use water rights of any agency of the United States recognized under federal or stato law are satisfied; and (2) subordination of the reserved water right for instream flow to water rights recognized under state law as set forth in and limited by Article III and more specifically in the Abstract.

b. Actual use of water in Wyoming shall not diminish the quantity of water designated for consumptive use pursuant to state law as set forth in Article III.

2. Method of Calculation of Consumptive Use Rights Recognized Under State Law:

To determine whether water is available for appropriation for consumptive use pursuant to stato law on Category 3 and 4 streams, and for determining whether the limit on subordination of the United States' water rights to consumptive uses has been reached, the following provisions shall apply:

a. Tributary Water: The calculation of total consumptive use on a Category 3 or 4 stream shall include all current and future consumptive use, recognized under stato law, of surface water tributary to the stream to the point it enters the reserved land. The limits on total consumptive use on a Category 4 stream that forms the boundary of the reserved land shall include all current and future consumptive use recognized under state law, of surface water tributary to the stream to the most downstream point that the stream forms the boundary of the reserved land.

b. Groundwater:

The following sections i. and ii., sball apply to BCNRA. The following sections i., and iii., shall apply to LBBNM.

i. Within 2 years after the effective date of this Compact, the Department, in consultation with the United States, is directed to promulgate rules as may be necessary to implement Article II, section B.2.b. Said rules shall not alter the rights or obligations of the parties hereto.

ii. The calculation of total future consumptive use on Category 3 or 4 streams at BCNRA shall include appropriations of groundwator as follows:

(1) The calculation of total future consumptive use shall not include appropriation of groundwater by means of a well or developed spring with an appropriation of 35 gallons per minute (gpm) or less that does not exceed 10 acre feet per year (afy).

(2) The limit on total consumptive use shall not include an appropriation of groundwater by means of a well or developed spring with a permit amount in excess of 35 gpm or with a volume of use greater than 10 afy, including a combined appropriation from the same source from two or more wells or developed springs that exceeds these limitations, unless the Unitod Statos shows by a preponderance of the evidence that the proposed appropriation is hydrologically connectod to surface water tributary te the reserved portion of a Category 3 or 4 stream. If the United States meets this burden, the Department shall include the appropriation in the calculation of total consumptive use.

(a) The Department shall provide notice of the proposed appropriation to the United States concurrent with notice pursuant to 85-2-307, MCA.

(b) Within 60 days of the mailing of notice, the Unitod States may file an objection to the proposed appropriation on the basis that it is hydrologically connected to surface water.

(c) If the proposed appropriation is determined not to be hydrologically connected to surface water, or if the limit on consumptive use has not been reached, the Department may issue a permit in accordance with state law and the applicant may complete the appropriation.

iii. Determination of whether an appropriation of groundwater after the effective date of the this Compact shall be subject to a curtailment to satisfy the instream flow water right at LBBNM shall be made as follows:

(1) Groundwater appropriations subject to curtailment shall not include an appropriation ef groundwater for stock or domestic purposes by means of a well or developed spring with an appropriation of 35 gpm or less that does not exceed 10 afy.

(2) Groundwater appropriations subject to curtailment to satisfy the 51 cfs instream flow water rights for LBBNM shall not include an appropriation of groundwater by means of a well or developed spring with a permit amount in excess of 35 gpm or with a volume of use greater than 10 afy, including a combined appropriation from the same source from two or more wells or developed springs that exceeds these limitations, unless the United Statos shows by a preponderance of the evidence that the proposed appropriation is hydrologically connected to the Little Bighorn River or its tributaries upstream from LBBNM.

(a) The Department shall provide notice of the proposed appropriation to the United Statos concurrent with notice pursuant to 85-2-307, MCA.

(b) Within 60 days of the mailing of notice, the United States may file an objection to the proposed appropriation on the basis that it is hydrologically connected to surface water.

HeinOnline -- 1995 vol. I 419 1995

(c) If the proposed appropriation is determined not to be hydrologically connected to surface water the Department may issue a permit in accordance with state law and the applicant may complete the appropriation.

(d) If the proposed appropriation is determined to be hydrologically connected to surface water the Department may issue the permit in accordance with state law with notice that the appropriation is subject to curtailment to satisfy the instream flow water right of the LBBNM and the applicant may complete the appropriation.

(3) Groundwater appropriations subject to curtailment to satisfy the 950 cfs instream flow water rights for LBBNM shall not include an appropriation of groundwater by means of a well or developed spring with a permit amount in excess of 35 gpm or with a volume of use greater than 10 afy, including a combined appropriation from the same source from two or more wells or developed springs that exceeds these limitations, unless the United States shows by a preponderance of the evidence that the proposed appropriation is hydrologically connected to the Little Bighorn River or its tributaries upstream from LBBNM and the appropriation is completed in the Quaternary Alluvium, Quaternary Terrace Deposits, or the Parkman Sandstone.

(a) The Department shall provide notice of the proposed appropriation to the United States concurrent with notice pursuant to 85-2-307, MCA.

(b) Within 60 days of the mailing of notice, the United States may file an objection to the proposed appropriation on the basis that it is hydrologically connected to surface water and the proposed appropriation is to be completed in the Quaternary Alluvium, Quaternary Terrace Deposits, or the Parkman Sandstone.

(c) If the proposed appropriation is determined not to be hydrologically connected to surface water or not to be completed in the Quaternary Alluvium, Quaternary Terrace Deposits, or the Parkman Sandstone the Department may issue a permit in accordance with state law and the applicant may completo the appropriation.

(d) If the proposed appropriation is determined to be hydrologically connected to surface water and to be completed in the Quaternary Alluvium, Quaternary Terrace Deposits, or the Parkman Sandstone the Department may issue the permit in accordance with state law with notice that the appropriation is subject to curtailment to satisfy the instream flow water right of the LBBNM and the applicant may complete the appropriation.

c. Abandonment: When a consumptive use right recognized under state law on a Category 3 or 4 stream is abandoned and such abandonment causes water to become available for appropriation within the limits of the total amounts of water allocated to consumptive use rights recognized under state law established for that stream by Article III, the increment of water below that limit is available for new appropriation in accordance with state law and this Compact. State law governs the issue of whether an abandonment has occurred.

d. Non-Consumptive Use: The limit on total consumptive use rights recognized under state law shall not include non-consumptive uses as defined by this Compact.

C. Subordination of Instream Flow Right:

1. The United States agrees to subordinate its reserved water right for instream flow to consumptive uses calculated according to this Article in a manner that is specific to each stream on which a reserved wator right is described. This subordination is set forth for each stream in Article III. Curtailment of uses to which the reserved water rights described in this Compact have not been subordinated during periods of low flow shall proceed on the basis of priority and may he initiated in a state or federal court of competent jurisdiction pursuant to Article II, sections I and K.

2. The reserved water rights described in this Compact shall not he subordinate to water rights which were forfeited by § 85-2-212 as interpreted in In the Matter of the Adjudication of the Water Rights within the Yellowstone River, 253 Mont. 167, 832 P.2d 1210 (1992), nor shall any claimant of such forfeited water right have standing, based solely on such claimed right, to object to this Compact or any reserved water right described in this Compact, provided that water allocated to future consumptive use pursuant to Article III of this Compact may be used to satisfy claims filed pursuant to 85-2-221(3), MCA in order of priority.

D. Location of Instream Flow Rights: The United States' reserved water rights for instream flow apply to the portion of the Categories 1 through 4 streams specified in this Compact that flow over or form the boundary to reserved land administered by the National Park Service.

E. Change in Instream Flow Right: Except as provided in Article II, section J.2.b., the water rights dedicated to instream flow by this Compact shall not be changed to any other use.

F. Prohibition on Future Impoundments: No new impoundments may be permitted on the mainstom of the Little Bighorn River in Montana upstream of the LBBNM after the effective date of this Compact. This prohibition shall include impoundments that are exempt from permit requirements under state law. Reclamation, repair or rehabilitation of an existing impoundment shall not be considered a new impoundment, provided that without the consent of the United States, reclamation, repair or rehabilitation shall not cause the impoundment to exceed the original constructed capacity of the impoundment. This prohibition shall not apply to impoundments constructed to store a senior Tribal water right or to implement settlement of litigation regarding quantification of a Tribal water right.

G. Management to Maximize Use by Montana Water Users of the Water Allocated to Consumptive Use Rights Recognized Under State Law: If any type of conservation or water distribution plan which includes measurement of actual water use, including use pursuant to rights recognized under state law with a priority date before the effective date of this compact, is adopted pursuant to state law, the limits established for consumptive use appropriated pursuant to stato law shall apply to actual measured use, not permitted and decreed or claimed rights, provided that records of actual use be made available to the United States on request and provided further that, such plan shall not diminish the reserved water right of the United States as described in this Compact.

H. Basin Closure

1. Except as provided in Article II, section B.2.c., in the following drainage basins upstream of the portion of the stream for which a reserved water right for instream flow is described in this Compact, the Department shall not process or grant an application or registration for a permit to appropriate or to reserve water for future consumptive use as defined by this Compact once the limits on consumptive use tabulated in Article III and set forth more specifically in the Abstract are reached:

Big Horn Canyon National Recreation Area:

Dry Head, Deadman, Davis and Layout Creeks

2. If a temporary or permanent basin closure is enacted under state law for a drainage basin or subbasin for which future consumptive water use is limited under this Compact, the most restrictive measures applicable to consumptive use of surface or groundwater shall control.

I. Enforcement of Water Right

1. The United States, the state, or the holder of a water right recognized under state law, may petition a state or federal court of competent jurisdiction for relief when a controversy arises between the United States' reserved water right described by this Compact, and a holder of a water right recognized under state law. Resolution of the controversy shall be governed by the terms of this Compact where applicable, or to the extent not applicable, by applicable state or federal law.

2 The United States agrees that a water commissioner appointed by a state or federal court of competent jurisdiction, or other official authorized by future changes in law, may enter a federal reservation for which a water right is described in this Compact for the purpose of data collection, including the collection of information necessary for water distribution on or off the federal reservation, and to inspect structures for the diversion and measurement of water described in this Compact for consumptive use and for the measurement of instream flow. The terms of entry shall be as specified in an order of a state or federal court of competent jurisdiction.

3. The Department or the Bureau may enter a federal enclave for which a reserved water right is described in this Compact, at a reasonable hour of the day, for the purposes of data collection on water diversion and stream flow or inspection of devices maintained by the United States pursuant to this Compact. The Department or Bureau shall notify the United States by certified mail or in person, at least 24 hours prior to entry.

4. The United States may request an investigation by the Department of a diversion located upstream of the reserved portion of a stream for which a reserved water right is described in this Compact. The Department may investigate. If an investigation occurs, the United States may accompany the Department.

5. Tbe United States shall maintain structures, including wellhead equipment and casing, for the diversion and measurement of water authorized for consumptive use by this Compact. The United States shall maintain the

HeinOnline -- 1995 vol. I 422 1995

devices it deems necessary for enforcement of its reserved water right for instream flow described in this Compact. The United States shall install and maintain a rated gauge to measure instream flows in the Little Bighorn River. The gauge on the Little Bighorn River shall be on the reach of the river which forms the boundary of the LBBNM, the exact location of which shall be at the discretion of the NPS. The NPS shall resurvey the channel cross section as necessary to maintain gauge accuracy, but in any event not less frequently than every three (3) years. The United States may not seek curtailment of junior water uses unless the channel has been resurveyed within three (3) years of the date on which curtailment is sought.

6. A person who violates or refuses or neglects to comply with the provisions of this Compact, an order of the Department pursuant to this Compact, or an action by the Bureau pursuant to this Compact is subject to the penalties provided by state law.

7. For any appeal to state court of an administrative decision authorized by this Compact, venue shall be the First Judicial District in Helena and the review shall be conducted according to the procedures for judicial review of contested cases under the Montana Administrative Procedures Act, Title 2, Chapter 4, of the Montana Code Annotated.

8. In any contested case proceeding held under the Montana Administrative Procedures Act, Title 2, Chapter 4, of the Montana Code Annotated, pursuant to this Compact, the common law and statutory rules of evidence shall apply only upon stipulation of all parties to a proceeding.

J. Change in Use

1. Change in Use Defined: For the purpose of this Article, the following actions affecting the use of a reserved water right for consumptive use described in this Compact shall be considered a change in use:

a. An action that alters type of use, place of use, point of diversion, place or means of storage, period of use or point of return flow that will:

i. increase the net depletion on a source; or

ii. adversely affect water quality at the point the reserved water right ends; or

iii. result in a change in point of diversion or point of return flow relative to a holder of a water right recognized under stato law; or

iv. change the point of diversion from groundwater to surface wator, or from surface to groundwater; or

v. in any other manner, adversely affects the reasonable exercise of a water right that is recognized under state law.

b. The exercise of a reserved water right to future consumptive use as authorized by this Compact shall not be considered a change in use.

2. Instream flow: Reserved water rights specified in this Compact for instream flow shall not be subject to change to any other use, provided that:

a. the emergency use of water for fire suppression as provided for in Article III.C. shall not be deemed a change or alteration in use, or violation of a reserved water right for instream flow; and

b. the United States may seek to appropriate water for a consumptive use on a source for which no consumptive use is described in this Compact by seeking a permit under state law for consumptive use, provided that the water right granted shall not be counted against the limits on allocation for state consumptive use water rights imposed by this Compact. The water right so acquired shall be administered in accordance with Article V, section B.

3. Consumptive uses: The United States may take action affecting the use of its consumptive use water rights provided that (1) the action shall be in fulfillment of the purposes of the reservation; (2) tbe total use shall not exceed the amount described in this Compact; and (3) the action shall not adversely affect a wator right that is recognized under state law.

4. Notice of intent to change use: At least 180 days prior to a change in use, the United States agrees to provide notice to the Department.

a. The notice shall contain the facts pertinent to the proposed change including, where applicable:

i. The location of a new point of diversion.

ii. The new source of water.

h. At least 120 days prior to the proposed change, the United States agrees to publish the notice required by Article II, section J.4.a. with a statement that within 60 days following publication or service of notice, relief may be sought in a stato or federal court of competent jurisdiction, once in a newspaper of general circulation in the area of the source, and to serve the notice by first-class mail on interested and potentially affected persons as identified by the records of the Department, including:

i. an appropriator of water or applicant for or holder of a permit who, according to the records of the Department, may be affected by the proposed appropriation;

ii. a purchaser under contract for deed that, according to the records of the Department, may be affected by the proposed appropriation;

iii. any public agency that has reserved water in the source recognized under state law; and

iv. a federal agency or Tribe that claims a reserved water right or other water rights in the source.

c. On request by the United States, the Department shall provide the information contained in its records identifying any person potentially affected hy the proposed change. The United States agrees te reimburse the Department for the expense of providing this information.

d. In the event that future changes in state law establish a method of notice of a proposed change in use to interested and potentially affected persons other than by first-class mail, the United States may alter the method of notification accordingly.

e. Prior to the actual change, tbe United States agrees to provide the Department with proof of notice by affidavit.

5. Objection to proposed change: Within 60 days following the notice pursuant to Article II, section J.4.b., the Department or any other person may hring an action against the proposed change in use in a state or federal court of competent jurisdiction, if a property right, water right, or other interest protected under state law would be adversely affected, or if the proposed change is not in compliance with this Compact.

6. Notice of Change:

a. The United States agrees to notify the state and provide a copy of the final order within 60 days of its entry by a state or federal court of competent jurisdiction resolving any objections to the change in use of a federal reserved water right described in this Compact.

b. The United States agrees to provide the state with notice of completion of the change within 60 days after the completion.

7. Reporting by the United States: For any action affecting the use of a consumptive right whether or not such action is deemed a change in use, the United States agrees to provide the following information to the Department:

a. Well log: For a use that includes the drilling of a well or enlargement of an existing wellhore, the United States agrees to provide a well log to the state within 60 days of the completion of the well.

b. Emergency Use: Within 60 days after the commencement of a tomporary emergency use for fire suppression described in Section III.C. of this Compact, the United States agrees to notify the state of the use to which the water was put, the dates of use, and the estimated amount of water used.

c. Annual Report: Between April 1 and May 1 of each year, the United States agrees to provide the Department with a report on (1) actions during the preceding year affecting the use of a consumptive use right described in this Compact, regardless of whether the action is deemed a change in use pursuant te Article II, section J.1.; (2) the initiation of new uses that were completed during the preceding year; and (3) any data and documents generated or received by the National Park Service during the preceding year on measurement of instream flow on a Category 3 or 4 stream.

8. Reporting by the State: Between December 1 and December 31 of each year, the Department shall provide the United States with a report of: (1) changes in use during the preceding year, as defined by state law, of water rights upstream of or within the boundaries of reserved land for which a reserved water right is described in this Compact; (2) new permits issued during the preceding year according to the records of the Department; and (3) any data and documents generated by the Department during the preceding year on the measurement of streamflows, diversions and well use on or tributary to Category 3 or 4 streams.

K. Administration of Little Bighorn Instream Flow

Tbis section governs the administration of instream flow rights of the United States on the Little Bighorn River described in Article III. section B.3., in relation to junior water rights initiated after the effective date of this Compact te which the United States has not subordinated and which are not a part of the Crow Tribal Water Rights. Nothing in these provisions, or in this Compact, regarding administration affects or in any way impairs any ability or authority of the Crow Tribe to administer, regulate or manage any water rights within the boundaries of the Crow Indian Reservation.

1. For purposes of administering the instream flow water right of the United States described in Article III. section B. 3. the United States shall establish and maintain a discharge gauge at the LBBNM gaugo site. The United States shall keep a record of daily flows for the period from March 1 through June 30 of each year in which the United States seeks curtailment of junior water rights.

2. The United States may seek curtailment to enforce its 950 cfs instream flow water right, described in Article III. section B.3.b., at the LBBNM gauge site any time from May 1 through June 30. The decision te seek curtailment shall be initiated by the NPS and at the NPS's discretion.

a. A decision to seek curtailment to enforce tbe 950 cfs instream flow water right shall be based on a determination that the flow at tbe LBBNM gauge site plus claimed or permitted appropriations by non-subordinated junior water users equals 950 cfs or more.

b. Once curtailment is sought and confirmed as set forth in Article II. section K.3, it may last for up to 15 consecutive days, or through June 30, whichever occurs first, provided, however, that the 15 days shall be reduced by subtracting the number of days between March 1st and the date of confirmation of curtailment that the flow at the LBBNM gauge site has equalled or exceeded 950 cfs

c. Any curtailment based upon the 950 cfs water right shall be limitod to direct surface diversions from the Little Bighorn River and its tributaries, and wells completed in the Quaternary Alluvium, Quaternary Terrace Deposits, or the Parkman Sandstone, as described in Article II. section B.2.b.iii.(3).

3. Notice by NPS that it seeks curtailment to enforce the 950 cfs instream flow water right shall be by either written or verbal notice to the appropriate DNRC office. The NPS shall use its best efforts te maintain contact with the DNRC beginning May 1st of each year to provide advance warning of stream flow conditions.

a. Upon receipt of notice from the NPS that the United States requests curtailment to enforce the 950 cfs instream flow water right, the DNRC shall, within 24 hours, verify actual diversions hy non-suhordinated junior water users and confirm that the sum of flow at the LBBNM and actual diversions by non-subordinated junior water users equals or exceeds 950 cfs. If the DNRC determines that the actual diversions are insufficient to bring the flow at the LBBNM gauge site te 950 cfs, it shall not proceed with curtailment. If a decision is made not to proceed with curtailment, the DNRC shall notify the NPS the same day. After notification, the NPS may again seek curtailment beginning the following day if conditions of flow and time of year meet the conditions set forth in Article II. section K.2.

b. If the DNRC proceeds with curtailment te enforce the 950 cfs water right, the DNRC shall, without delay, shut off non-subordinated junior wator uses in reverse order of priority to the extent necessary to bring the flow at the LBBNM gauge site to 950 cfs, provided that, DNRC has the discretion to forgo curtailment of a particular water right if it determines that curtailment of that water right to satisfy the 950 cfs instream flow right would be futile.

c. Should flow at the LBBNM gauge site exceed 950 cfs at any time during curtailment, the DNRC may reopen diversions in order of priority until 950 cfs is reached. Should the flow at the LBBNM gauge site drop below 950 cfs at any time during the curtailment, non-subordinated junior water uses shall remain shut off provided that, if the NPS reasonably detormines the flow at the LBBNM gauge site is not likely to come back up to 950 cfs during the remainder of the curtailment period, it may consent to end the curtailment.

4. Notice by NPS that it seeks curtailment to enforce the 51 cfs instream flow water right described in Article III. section B.3.a., shall be by either written or verbal notice to the appropriate DNRC office. Upon receipt of notice from the NPS that the United States requests a curtailment to enforce the 51 cfs instream flow water right, the DNRC shall, within 24 hours, verify actual diversions by non-subordinated junior water users. If diversions are being made by non-subordinated junior water users, the DNRC shall, without delay, shut off non-subordinated junior water uses in order of priority to the extont necessary to bring the flow at the LBBNM gauge site to 51 cfs, provided that, DNRC has the discretion to forgo curtailment of a particular water right if it determines that curtailment of that water right to satisfy the 51 cfs instream flow right would be futile.

5. All permits within the Little Bighorn River Basin upstream of the LBBNM gauge site with a priority date after the effective date of this Compact shall be conditioned on the prior right of the NPS for 950 cfs instream flow water right at the LBBNM during May and June, and for the 51 cfs instream flow water right during any portion ef the year, and on the authority of DNRC to curtail use to satisfy the instream flow right.

6. All diversions from the Little Bighorn River er its tributaries ahove LBBNM with a priority date after the effective date of this Compact, shall have the duty to establish and maintain a controllable headgate and an adequate measuring device and shall also be required to maintain a record of daily water diversions, including noting the number of hours for which diversions are made for each day and the flow rate at which water is diverted.

HeinOnline -- 1995 vol. I 427 1995

7. DNRC and NPS shall work together to develop a quantitative prediction relationship between the flow at the LBBNM gauge site, diversions hy non-subordinated junior water users, and the prediction of curtailment requirements.

8. Either party has the right to petition a court of competent jurisdiction for administration of wator rights or for appointment of a water commissioner should cooperative administration not be proceeding as planned or should cooperative administration become burdensome. Any wator commissioner shall enforce the curtailment as described in this Compact. Exhaustion of administrative remedies pursuant to this article is not a prerequisite to any such suit.

ARTICLE III

WATER RIGHT

The parties agree that the following water rights are in settlement of the reserved water rights of the United States for the reservations described. The parties to this agreement recognize that the water rights for these NPS Units are junior to Crow Tribal Water Rights. All reserved water rights described in this Article are subject to Article V, section A.

2. Consumptive Use: The United States has water rights for current and future consumptive use for the purposes of the Bighorn Canyon National Recreation Area (BCNRA) as set forth in the following Table. The period of use shall be from January 1 through December 31. The source and place of use shall be as set forth more specifically in the Abstract.

3. Instream Flow

The United States has water rights for instream flow in the streams which flow over the land of Bighorn Canyon National Recreation Area. These water rights for instream flow are quantified and defined as follows:

a. Category 1a:

i. Identification: The following streams are designated as "Category 1a": North Fork Trail Creek, South Fork Trail Creek, and Trail Creek.

ii. Instream Flow: The United States has a water right for instream flow on the Category 1a streams where they enter the BCNRA in the amount of the entire flow of the streams, less (1) any United States' consumptive use rights described in this Compact and any Crow Tribal Water Rights; and (2) all water rights appurtenant to nonfederal land within the boundaries of BCNRA recognized under state law and having a priority date before the effective date of this Compact.

In the event that all non-federal land on a Category 1a stream is acquired by the United States for the purpose of addition to BCNRA, the stream may be reclassified as a Category 1 stream at the request of the United States.

b. Category 3:

i. Identification: The following streams are designated as "Category 3": Dry Head Creek, Deadman Creek, Davis Creek (aka Medicine Creek), and Layout Creek.

ii. The United States has a water right for instream flow on Category 3 streams in the amount of the entire flow of the streams, less any United States' consumptive use rights described in this Compact, and any Crow Tribal Water Rights, provided that, the instream flow right is subordinate to (1) the sum of all water rights recognized under state law with a priority date before the effective date of this Compact, plus any future consumptive use rights calculated according to Article II of this Compact until the limit on future consumptive use set forth in the table below is reached; (2) any use considered non-consumptive as defined by this Compact; (3) any use for instream stockwatering or for stockwater or domestic uses by wells or developed springs with an appropriation of 35 gpm or less that does not exceed 10 afy; and (4) any use of groundwater not included in the calculation of consumptive use according to Article II of this Compact.

** Or the amount of net depletions reasonably necessary to irrigate 35 acres, whichever is largest.

c. Category 4:

i. Identification: The following streams are designated as "Category 4": Pete's Canyon Creek, the tributary of Deadman Creek that issues from Annerer Spring and flows across BCNRA land in the N1/2NW1/4 Sec. 8, T8S, R29E, M.P.M.

(1) The United States has a water right for instream flow on Pete's Canyon Creek in the amount of one-balf (1/2) of the naturally occurring flow that originates from Pete's Spring.

(2) The United States has a water right for the tributary of Deadman Creek, in the amount of one (1) gallon per minute.

4. Springs

The United States has a water right for instream flows for the following springs identified by location, in the amount of the entire flow of the springs, less any consumptive use rights of the United Statos described by this Compact.

Sorenson Spring	Sec. 09, T9S, R28E
Lockhart #1 Spring	Sec. 13, T8S, R28E
Lockhart #2 Spring	Sec. 13, T8S, R28E
Hillsboro Spring	Sec. 36, T8S, R28E

This list of springs may be modified based on field verification of any spring located entirely within the boundaries of the BCNRA that is not the source of a water right recognized under state law. Springs that occur on Crow Reservation lands are excluded from any water rights for springs.

B. Little Bighorn National Battlefield

1. Priority Date

a. The Unitod States has a priority date of December 7, 1886 for current and future consumptive uses under the water rights reserved for the irrigation, maintenance and administration of the Little Bighorn Battlefield National Monument. The United States recognizes that its water rights for the BCNRA are junior in priority to Crow Tribal Water Rights.

b. The United States has a priority date of March 22, 1946 for the instream flow water rights reserved for use as part of the Little Bighorn Battlefield National Monument, and necessary for historical interpretation of the battle. The United States recognizes that its water rights for the LBBNM are junior in priority te Crow Tribal Water Rights.

2. Consumptive Use

a. The United States has a reserved water right for current and future consumptive uses for the purposes of LBBNM as set forth in Table 3. The period of use shall be from January 1 through December 31. Tbe place of use or point of diversion of a consumptive use water right at LBBNM shall include any non-reserved land within LBBNM boundaries as the boundaries exist on the effective date of this Compact.

a. The United States has a reserved water right for minimum instream flow in the amount of 51.0 cfs with a priority of March 22, 1946, for the period January 1 through December 31, provided that, the instream flow water right is subordinate to:

(1) any water rights recognized under the state law with a priority date before the effective date of this Compact;

(2) any instream stockwater use;

(3) any use of groundwater through wells or developed springs with an appropriation of 35 gpm or less that does not exceed 10 afy;

C. Emergency Fire Suppression

The use of water for emergency fire suppression benefits the public, and is necessary for the purposes of the various Park reservations. The United States, may as part of its reserved water right, divert water for fire suppression at all of the National Park Service Units as needed, and without a definition of the specific elements of a recordable water right. Use of water for fire suppression shall not be deemed an exercise of the United States' reserved water rights for consumptive use or a violation of its reserved water rights for instream flow.

ARTICLE IV

GENERAL PROVISIONS

A. No Effect on Tribal Rights or Other Federal Reserved Water Rights:

1. Nothing in this Compact may be construed or interpreted in any manner to establish the nature or extent of the rights to water or the right to administer water of an Indian Trihe in Montana, or of a water right of an individual that is derivative of such right, or of the United States on behalf of such tribe or trihal member. The relationship between the water rights of the National Park Service described herein and any rights to water of an Indian Trihe in Montana, or of a water right of an individual that is derivative of such right, or of the United States on hehalf of such tribe or tribal member shall be determined by the rule of priority. The United States specifically recognizes the seniority of the Crow Tribal Water Rights.

2. Nothing in this Compact is otherwise intended to conflict with or abrogate a right or claim of an Indian Tribe regarding boundaries or property interests in the State of Montana.

3. Nothing in this Compact may be construed or interpreted in any manner to establish the nature, extent or manner of administration of the rights to water of any other federal agency or federal lands in Montana other than those of the National Park Service. The exercise of a water right of the United States, if any, to water for a consumptive use on land administered by the United States Forest Service upstream of a water right to instream flow described in tbis Compact shall be allocatod from the United States' share for instream flow, not the state's share for consumptive use.

B. State Water Rights

Nothing in this Compact may limit the exclusive authority of the state, including the authority of a water commissioner authorized by state law, to administer all current and future water rights recognized under state law within and upstream of the reserved land covered by this Compact, provided that in administration of those water rights in which the United States has an interest, such authority is limited to that granted under federal law.

C. General Disclaimers

Nothing in this Compact may be construed or interpreted:

1. as a precedent for the litigation or the interpretation or administration of future compacts between the United States and the state; or of the United States and any other state;

3. as a waiver by the United States of its right to seek relief from a conflicting water use not entitled to protection under the terms of this Compact;

4. to establish a precedent for other agreements between the state and the United States or an Indian tribe;

5. to determine the relative rights, *inter sese*, of persons using water under the authority of state law or to limit tbe rights of the parties or a person to litigate an issue not resolved by this Compact;

6. to create or deny substantive rights tbrough headings or captions used in this Compact;

7. to expand or restrict any waiver of sovereign immunity existing pursuant to federal law as of the effective date of this Compact;

10. to alter or amend any provisions of the Yellowstone River Compact, Act of October 30, 1951, ch. 629, 65 Stat. 663 (1951).

D. Use of Water Right

Except as otherwise provided in this Compact, the rights of the United States described in this agreement are federal reserved wator rights. Non-use of all or a part of the federal reserved water rights described in this Compact shall not constitute abandonment of the right. The federal reserved water rights described in this Compact need not be applied to a use deemed beneficial under state law, but shall he restricted to uses necessary to fulfill the purposes of the associated reserved land.

E. Appropriation Pursuant to State Law

Nothing in this Compact may prevent the United States from seeking a permit to appropriate water under state law for use outside the boundaries of the federal reservations for which a water right is described in this Compact, provided that, no such use may be included in the calculation of total current or future consumptive use rights allocated to use pursuant to state law by this Compact, and provided further that, a water right obtained in this manner shall be considered a state water right and shall be administered pursuant to general provisions of state law as provided in Article II, section J.2.b.

The parties understand and agree that the submission of this Compact to a stete court or courts, as provided for in this Compact, is solely to comply with the provisions of 85-2-702(3), MCA, and does not expand the jurisdiction of the state court or expand in any manner the limited waiver or sovereign immunity of the United States in the McCarran Amendment, 43 U.S.C. § 666 or other provision of federal law.

Within one year of such judgment the United States agrees to commence such additional proceedings in the federal district court for the District of Montana as may be necessary to judicially confirm the reserved water rights described herein which are not included within an existing action.

The parties intend that, with the exceptions noted herein, the water rights described in this Compact are in full and final settlement of the water right claims for the reserved land administered by the National Park Service in Montana on the effective date of this Compact. Pursuant to this settlement, by which certain federal reserved water rights are expressly recognized by the state in this Compact and other water rights claims of the United States are expressly retained in Article III, sections D. and F. in the Compact for YNP, GNP and BHNM, the United States hereby and in full settlement of any and all claims filed by the United States or which could have been filed hy the United States for reserved land administered by the National Park Service in Montana relinquishes forever all said claims on the effective date of this Compact to water within the State of Montana for reserved land administered by the National Park Service. The state agrees to recognize the reserved water rights described and quantified herein, and shall, except as expressly provided for herein, treat them in the same manner as a water right recognized by the state.

STATEMENT OF INTENT

A statement of intent is required for this bill because the bill gives the department of health and environmental sciences authority to adopt administrative rules. It is the intent of the legislature that in adopting rules to implement [section 1], the department consult with flow-through hot springs pool owners. The rules should set out standards for hot springs pools maintained at 106 degrees F or less and used primarily for soaking, pools under 100 degrees F and used primarily for swimming, and shallow pools designed primarily for young children.

Be it enacted by the Legislature of the State of Montana:

Section 1. Special requirements for flow-through hot springs pools. In addition to the other requirements of this chapter and rules promulgated under this chapter, flow-through hot springs pools must meet the following requirements:

(1) The temperature of the pool water must be 106 degrees F or less.

(3) The pool water must be maintained at a pH of no less than 7.2 and not greater than 8.5.

(4) The pool must provide sufficient water volume exchange to produce an 8-hour turnover of the entire volume of pool water to waste. In addition:

(a) the pool, and all surfaces that flow into the pool, must be drained, cleaned, and sanitized every 72 hours; or

(b) the pool must be disinfected, and a chlorine residual of 1 to 3 parts per million or a bromine residual of 3 to 6 parts per million must be maintained in the pool at all times.

(5) Signs must be prominently posted that specify pool rules and special health hazards associated with swimming or bathing in flow-through hot springs pools. The contents of the signs must be determined by department rule. The department, in developing rules under this section, shall consult with flow-through hot springs pool owners.

Be it enacted by the Legislature of the State of Montana:

Section 1. Definitions. As used in this part, the following definitions apply:

(1) "Accepted actuarial standards" means the standards adopted by the casualty actuarial society in its Statement of Principles Regarding Property and Casualty Insurance Ratemaking and the Standards of Practice adopted by the actuarial standards board.

(2) "Advisory organization" means a person or organization that either has two or more member insurers or is controlled either directly or indirectly by two or more insurers and that assists insurers in ratemaking-related activities. The term does not include a joint underwriting association, any actuarial or legal consultant, or any employee of an insurer or insurers under common control or management or their employees or manager. As used in this subsection, two or more insurers who have a common ownership or operate in this state under common management or control constitute a single insurer.

(3) "Classification system" means the plan, system, or arrangement for recognizing differences in exposure te hazards among industries, occupations, or operations of insurance policyholders.

(4) "Contingencies" means provisions in rates to recognize the uncertainty of the estimates of losses, loss adjustment expenses, other operating expenses, and investment income and profit that comprise those rates. The provisions may be explicit, including but not limited to a specific charge to reflect systematic variations of estimated costs from expected costs, or implicit, including but not limited te a consideration in selecting a single estimato from a reasonable range of estimates, or both.

(5) "Developed losses" means adjusted losses, including loss adjustment expenses, using accepted actuarial standards to eliminate the effect of differences between current payment or reserve estimates and those needed to provide actual ultimate loss payments, including loss adjustment expense payments.

(6) "Expenses" means the portion of a rato that is attributable to acquisition, filed supervision and collection expenses, general expenses and taxes, licenses, or fees.

(7) "Experience rating" means a rating procedure using past insurance experience of the individual policyholder to forecast future losses by measuring the policyholder's loss experience against the loss experience of policyholders in the same classification to produce a prospective premium credit, debit, or unity modification.

(8) "Insurer" means a person licensed to write workers' compensation insurance as a plan No. 2 insurer under the laws of the state.

HeinOnline -- 1995 vol. I 516 1995

(9) "Loss trending" means a procedure for projecting developed losses to the average date of loss for the period during which the policies are to be effective, including loss ratio trending.

(10) "Market" means the interaction in this state between buyers and plan No. 2 sellers of workers' compensation and employer's liability insurance pursuant to the provisions of this part.

(11) (a) "Prospective loss costs" means historical aggregato losses and loss adjustment expenses, including all assessments that are loss-based, projected through development to their ultimate value and through trending to a future point in time and ascertained by accepted actuarial standards.

(b) The term does not include provisions for profit or expenses other than loss adjustment expenses and assessments that are loss-based.

(12) "Pure premium rate" means the portion of the rate that represents the loss cost per unit of exposure, including loss adjustment expense.

(13) (a) "Rate" or "rates" means rate of premium, policy and membership fee, or any other charge made by an insurer for or in connection with a contract or policy of workers' compensation and employer's liability insurance, prior to application of individual risk variations based on loss or expense considerations.

(b) The term does not include minimum premiums.

(14) "Reserve estimates" means provisions for insurer obligations for future payments of loss or loss adjustment expenses.

(15) "Statistical plan" means the plan, system, or arrangement that is used in collecting data.

(16) "Supplementary rate information" means a manual or plan of rates, statistical plan, classification system, minimum premium, policy fee, rating rule, rate-related underwriting rule, and any other information needed to determine the applicable premium for an individual insured that is consistent with the purposes of this part and with rules prescribed by rule of the commissioner.

(17) "Supporting information" means the experience and judgment of the filer and the experience or data of other insurers or advisory organizations relied on by the filer, the interpretation of any statistical data relied on by the filer, descriptions of methods used in making the rates, and any other similar information required te be filed by the commissioner.

Section 2. Competitive market — hearing. (1) A competitive market is presumed to exist unless the commissioner, after hearing, issues an order stating that a reasonable degree of competition does not exist in the market. The order may not expire later than 1 year after issuance.

(2) In determining whether a reasonable degree of competition exists, the commissioner shall consider the following factors:

(a) the number of insurers actively engaged in providing coverage;

(b) market shares and changes in market shares;

HeinOnline -- 1995 vol. I 517 1995

(c) ease of entry into the market;

(d) market concentration among plan No. 2 insurers as measured by the Herfindahl-Hirschman index;

(e) whether long-term profitability for insurers in the market is unreasonably high in relation to the risks being insured;

(f) wbether long-term profitability for insurers in the market is reasonable in relation to industries of comparable business risks; and

(g) generally accepted and relevant tests relating te competitive market structure, market performance, and market conduct.

(3) The workers' compensation insurance market may not be determined to be noncompetitive if the market concentration of the 50 largest insurers writing workers' compensation insurance under plan No. 2 satisfied the U.S. department of justice merger guidelines for an unconcentrated market.

(4) The commissioner's determinations must be made on the basis of findings of fact and conclusions of law.

Section 3. Ratemaking standards — review by commissioner. (1) Rates may not be excessive, inadequate, or unfairly discriminatory.

(2) Rates in a competitive market are not excessive. Rates in a noncompetitive market are excessive if they are likely to produce a long-run profit that is unreasonably high in relation to services rendered.

(3) A rate may not be determined te be inadequate unless:

(a) it is clearly insufficient to sustain projected losses and expenses; and

(h) the rate is unreasonably low and the use of the rate by the insurer has had or, if continued, will tend to create a monopoly in the market; or

(c) funds equal to the full, ultimate cost of anticipated losses and loss adjustment expenses are not produced when prospective loss costs are applied to anticipated payrolls.

(4) Unfair discrimination exists if, after allowing for practical limitations, price differentials fail to reflect equitably the differences in expected losses and expenses. A rate is not unfairly discriminatory because different premiums result for policyholders with different loss exposures or expense levels.

(5) In determining whether rates comply with standards under subsection (1), consideration must be given to:

(a) past and prospective loss experience within and outside Montana, in accordance with accepted actuarial principles;

(b) catastrophe hazards and contingencies;

(c) past and prospective expenses within and outside Montana;

HeinOnline -- 1995 vol. I 518 1995

(d) loadings for leveling premium rates over time for dividends, savings, or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members, or subscribers;

(e) a reasonable margin for underwriting profit; and

(f) all other relevant factors within and outside Montana.

(6) The systems of expense provisions included in the rates for use by an insurer or group of insurers may differ from those of any other insurer or group of insurers to reflect the requirements of the operating methods of the insurer or group insurers.

(7) The rate may contain provisions of contingencies and an allowance permitting a reasonable profit. In determining the reasonableness of a profit, consideration must be given to all investment income attributable to premiums and the reserves associated with those premiums.

(8) The commissioner may investigate and determine whether rates in Montana are excessive, inadequate, or unfairly discriminatory. In any investigation and determination, the commissioner shall also consider the factors specified in [section 2].

Section 4. Dividends — no regulation or prohibition. (1) An advisory organization may not adopt a rule that would regulate or prohibit the payment of dividends, savings, or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members, or subscribers.

(2) A plan for the payment of dividends, savings, or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members, or subscribers is not a rating plan or system.

(3) It is an unfair trade practice under 33-18-1003 to make the payment of a dividend or any portion of it conditioned upon renewal of the policy or contract.

Section 5. Membership in advisory organization. (1) The commissioner shall designate one workers' compensation advisory organization to assist the commissioner in gathering, compiling, and reporting relevant statistical information. Each workers' compensation insurer shall record and report its workers' compensation experience to the designated advisory organization as set forth in the uniform statistical plan approved by the commissioner.

(2) Each workers' compensation insurer must be a member or subscriber of the designated workers' compensation advisory organization. Each workers' compensation insurer may adhere to the policy forms filed by the advisory organization.

(3) Each workers' compensation insurer shall adhere to a uniform classification system and uniform experience rating plan that has been filed by the designated advisory organization with the commissioner and approved by the commissioner.

(4) Each workers' compensation insurer shall use the forms and adhere to the rules that the designated advisory organization shall develop and file with the commissioner. The forms and rules must be reasonably related to the

HeinOnline -- 1995 vol. I 519 1995

recording and reporting of data pursuant to the uniform statistical plan, the uniform experience rating plan, and the uniform classification system.

(5) The methodology of the experience rating plan required under subsection (3) must be based on:

(a) reasonable eligibility standards;

(b) incentives for loss prevention; and

(c) a premium differential to encourage safety.

(6) The designated advisory organization or an insurer may file rating plans with the commissioner that provide for prospective or retrospective premium adjustment based on an insured's expected or actual loss experience, including but not limited to scheduled rating adjustments, retrospective rating plans, optional deductible plans under 39-71-435, a construction industry premium credit plan under 39-71-2211, or other plans as authorized by statute or approved by the commissioner.

Section 6. Plan No. 3 membership in licensed workers' compensation advisory organization — reporting requirements. (1) The plan No. 3 insurer under Title 39, chapter 71, part 23, is required to be a member of a licensed workers' compensation advisory organization or a licensed workers' compensation rating organization under Title 33, chapter 16, part 4.

(2) If the plan No. 3 insurer is not a member of the workers' compensation advisory organization designated under [section 5], then, subject to the deviations from the uniform statistical plan, uniform classification system, and uniform experience rating plan that may be approved by the board of directors of the plan No. 3 insurer as provided in 39-71-2316(5), the insurer shall:

(a) record and report its workers' compensation experience to the designated advisory organization as required in the uniform statistical plan of the designated workers' compensation advisory organization approved by the commissioner, the uniform classification system, and the uniform experience rating plan that have been filed by the designated advisory organization with and approved by the commissioner; and

(b) use the forms and adhere to the rules that the designated advisory organization develops and files with the commissioner under [section 5].

Section 7. Interchange of rating plan — data exchange — cooperative action in ratemaking — violation of part. (1) Reasonable rules and plans may be adopted by the commissioner for the interchange of data necessary for the application of rating plans.

(2) To ensure conformity in administering rate regulatory laws, the commissioner, each insurer, and the advisory organization designated by the commissioner may exchange information and experience data with insurance regulatory officials, insurers, and advisory organizations in other states and may consult with them with respect to ratemaking and the application of rating systems.

(3) Cooperation among advisory organizations or among insurers and advisory organizations in ratemaking or in other matters within the scope of

HeinOnline -- 1995 vol. I 520 1995

this part is authorized, but the filings resulting from the cooperation are subject to all provisions of this part.

(4) The commissioner may review the cooperative activities and practices. If, after hearing, any cooperative activity or practice is found to violate the provisions of this part, a written order may be issued specifying that the activity or practice violates the provision of this part and requiring the discontinuance of the activity or practice.

Section 8. Rate filings. (1) A workers' compensation advisory organization shall file with the commissioner:

(a) workers' compensation rates and rating plans that are limited to prospective loss costs;

(b) each workers' compensation policy form to be used by its members or subscribers;

(c) the uniform classification plan and rules of the advisory organization;

(d) the uniform experience rating plan and rules of the advisory organization; and

(e) any other information that the commissioner requests and is entitled to receive under this part.

(2) Each insurer shall file with the commissioner all ratos, supplementary rate information, and any changes and amendments made by it for use in this state as required by tbe commissioner under [section 9(2)].

(3) An insurer may establish rates and supplementary rate information based upon the factors in [section 3]. An insurer may adopt by reference, with or without deviation, the prospective loss costs filed by the advisory organization designated under [section 5] or the rates and supplementary rate information filed by another insurer.

(4) An insurer may not make or issue a contract or policy of insurance under this part, except in accordance with the filings that are in effect for the insurer as provided in this part.

(5) In addition to other prohibitions in this part, an advisory organization may not file rates, supplementary rato information, or supporting information on behalf of an insurer.

(6) If each rate in a schedule of workers' compensation rates for specific classifications of risks filed by an insurer is not lower than the prospective loss costs contained in the schedule of workers' compensation ratos for those classifications filed by tbe designated advisory organization under [section 8(1)], tbe schedule of rates filed by the insurer is not subject to [section 9(1)] but becomes effective upon filing.

Section 9. Rate filing review. (1) The commissioner shall review each insurance filing to ensure compliance with the following guidelines:

(a) The effective date of eacb workers' compensation insurer or advisory organization filing must be the date specified in the filing. The effective date of

the filing may not be earlier than 30 days after the date on which the filing is received by the commissioner or the date of receipt of the information furnished in support of the filing, if the supporting information is required by the commissioner.

(b) Upon written application of the insurer or advisory organization, the commissioner may authorize a filing that becomes effective before the expiration of the period described in subsection (1)(a).

(c) A filing is considered to have met the requirements of this part unless disapproved by the commissioner within the period described in subsection (1)(a) or any extension of the period.

(2) Whenever a filing is not accompanied by the information required under this section, the commissioner shall inform the filer of the deficiency within 10 days of the initial filing. The filing is considered made when the required information is furnished or when the filer certifies to the commissioner that the additional information requested by the commissioner is not maintained or cannot be provided.

Section 10. Improper rates — hearing. (1) If the commissioner finds that a rate is not in compliance with [section 3] or that a rate has been set in violation of [section 14], the commissioner shall order that its use be discontinued for any policy issued or renewed after the date of the order, and the order may prospectively provide for premium adjustment of any policy then in force.

(2) The order must be issued within 30 days after the close of a hearing, if one is requested by the insurer, or within a reasonable time fixed by the commissioner. The order expires 1 year after its effective date unless rescinded earlier by the commissioner.

(3) If the commissioner disapproves a rate under subsection (1), disapproval must take effect not less than 15 days after the commissioner's order and the last previous rate in effect for the insurer must be reimposed for a period of 1 year unless the commissioner approves a rate under the provisions of subsection (5) or (6).

(4) A determination made by the commissioner under this section must be in accordance with accepted actuarial standards on the basis of findings of fact and conclusions of law.

(5) For a period of 1 year after the effective date of a disapproval order under subsection (1), a rate adopted to replace one disapproved under the order may not be used until it has been filed with the commissioner and approved within 30 days.

(6) Whenever an insurer does not have legally effective rates pursuant to subsection (1), the commissioner shall, on the insurer's request, specify interim rates for the insurer that are adequate to protect the interests of all parties. When new rates become legally effective, the commissioner shall order the reserved funds or any overcharge in the interim rates to be distributed appropriately, except that minimal adjustments may not be required.

HeinOnline -- 1995 vol. I 522 1995

Section 11. Restrictions on certain insurers — waiting period. (1) The commissioner may require that a particular insurer file any of its rates and supplementary rate information 30 days prior to the effective date of the rates, if the commissioner finds after a hearing that the protection of the interests of the insurer's insureds and the public in this state requires closer supervision of the insurer's rates.

(2) Upon written application by an insurer, the commissioner, following review, may authorize a filing, which is effective before the expiration of the period described in subsection (1).

(3) The filing must be approved or disapproved during the waiting period and, if not disapproved before the expiration of the waiting period, is considered to have met the requirements of this section.

(4) An insurer aggrieved by the commissioner's actions under this section may request a rehearing hy the commissioner after the expiration of 12 months from the date of the commissioner's initial order.

Section 12. Delay of rates in noncompetitive market. (1) A 30-day waiting period may be implemented or extended under one of the following circumstances:

(a) after finding that the market is not competitive under [section 2], the commissioner adopts a rule requiring that any subsequent changes in rates or supplementary information must be filed with the commissioner at least 30 days before the changes become effective;

(b) the commissioner extends the waiting period under this section for a period not exceeding 30 additional days by written notice to the filer before the first 30-day period expires;

(c) upon written application by an insurer or advisory organization, the commissioner, following review, authorizes a filing, which becomes effective before the expiration of the period described in subsection (1)(a) or (1)(b); or

(d) the filing is approved or disapproved during the waiting period and, if not disapproved before the expiration of the waiting period, is considered to have met the requirements of this section.

(2) If a rule is adopted under subsection (1), the commissioner may require the filing of supporting data as to classes of risks or combinations of risk classes that the commissioner considers necessary for the proper functioning of the rate monitering and regulating process. The supporting data must include:

(a) the experience and judgment of the filer and, to the extent that the filer wishes or the commissioner requires, the experience and judgment of other insurers or the advisory organization designated under [section 5];

(b) the interpretation of any statistical data upon which the filer relied;

(c) a description of the actuarial and statistical methods used in setting the rate; and

(d) any other relevant matter required by the commissioner.

HeinOnline -- 1995 vol. I 523 1995

(3) A rule adopted under this section expires 1 year after adoption unless renewed by the commissioner after hearings and appropriate findings under this section.

(4) Whenever a filing is not accompanied by the information that the commissioner has required under subsection (2), the commissioner shall inform the insurer within 10 days of the initial filing. The filing is considered made when the required information is furnished.

Section 13. Consent to rate. Notwithstanding any other provision of this part, upon the written consent of the insured, filed with the commissioner, a rate in excess of that determined in accordance with the other provisions of this part may be used on any specific risk.

(d) make an agreement with any other insurer or advisory organization to refuse to deal with any person in connection with the sale of insurance.

(3) The fact that two or more insurers, whether they are members or subscribers of a common advisory organization, use consistently or intermittently the same advisory organization rules or insurer guidelines, rating plans, rating schedules, rating rules, policy forms, rate classifications, underwriting rules, surveys, or inspections or similar materials is not sufficient in itself to support a finding that an agreement exists.

(4) An advisory organization or member or subscriber of an advisory organization may not interfere with the right of any insurer te establish its rates independently of that advisory organization or to charge rates different from the rates made by that advisory organization.

HeinOnline -- 1995 vol. I 524 1995

(5) Except as required by [section 8], an advisory organization may not have or adopt any rule or exact any agreement or formulate or engage in any program that would require any member, subscriber, or other insurer to:

(a) adhere to its rates; or

(b) prevent any insurer from acting independently.

Section 15. Advisory organization — permitted activity. An advisory organization may:

(1) develop statistical plans, including class definitions;

(2) collect statistical data from members, subscribers, or any other source;

The commissioner may determine the period of a suspension, which remains in effect for the period unless modified or rescinded or until the order upon which the suspension is based is modified, rescinded, or reversed.

(4) Unless a consent decree has been entered, a penalty may not be imposed nor may a license be suspended or revoked unless the commissioner, following a hearing, issues a written order with findings of fact. The hearing must be held at least 10 days after written notice to the person or organization specifying the alleged violation.

(2) A petition for review must be filed within 60 days from notice of the order, decision, or act. The commencement of the proceeding does not affect enforcement or validity of the commissioner's action unless the court determines, after notice to the commissioner, that a stay of enforcement until further direction of the court will not injure the interests of the public.

CHAPTER NO. 193

[SB 365]

AN ACT CHANGING CRITERIA FOR APPROVAL OF RECLAIMED VEGETATION SEEDED USING INTRODUCED SPECIES APPROVED BY THE DEPARTMENT OF STATE LANDS; AMENDING SECTION 82-4-235, MCA; AND PROVIDING A CONTINGENT EFFECTIVE DATE.

STATEMENT OF INTENT

This bill is intended to provide criteria for approving as successful reclamation reclaimed vegetation seeded in the 1970s and early 1980s using seed mixes that included grass species approved by the department of state lands. At that time, availability of native grass seed was very limited and introduced species in combination with native species were routinely approved. Because introduced grass species can be aggressive competiters, many of these lands are now dominated by introduced species. Current standards require dominance by native species as a condition for release of bond, and hence, mine operaters might be required to plow and reseed, restarting the 10-year bond liability period. Reclaimed vegetation dominated by introduced species has

HeinOnline -- 1995 vol. I 545 1995

demonstrated its ability to withstand climatic extremes, support grazing of livestock, provide habitat for wildlife, and control erosion. The date of May 3, 1978, is the date on which reclamation performance standards of the federal Surface Mining Control and Reclamation Act of 1977 became effective on existing coal mining operations in Montana.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 82-4-235, MCA, is amended to read:

"**82-4-235. Inspection of vegetation — final bond release.** *(1)* Inspection and evaluation for permanent diverse vegetative cover ~~shall~~ *must* be made as soon as ~~it is~~ possible *following an application for final bond release* to determine if a satisfactory stand has been established. If the department determines tbat a satisfactory permanent diverse vegetative cover has been established, it shall release the remaining bond held on the area reclaimed after public notice and an opportunity for hearing as provided in 82-4-232(6). ~~In no event shall such~~ *For land that was seeded using a seed mix that included a substantial component of introduced species approved by the department pursuant to 82-4-233(2) and on which reclaimed vegetation otherwise meets the requirements of 82-4-233(1), approval of reclaimed vegetation for release of bond may not be withheld on the basis that introduced species compose a major or dominant component. Except as provided in subsection (2)(b), the* remaining bond *may not* be released prior to a period of 10 years after the last year of augmented seeding, fertilizing, irrigation, or other work required under this part for those operations or portions of operations that were seeded after ~~February 2~~ *May 2*, 1978, or prior to a period of 5 years after initial planting for all exploration activities and all other operations.

(2) (a) Notwithstanding the provision in subsection (1), on land from which coal was removed prior to May 3, 1978, and on land from which coal was not removed and that was not used, disturbed, or redisturbed in connection with this part after May 2, 1978, the department may approve for release a bond on an area of reclaimed vegetation that meets the following criteria:

(i) it was seeded using a seed mixture that was approved by the department under the criteria established pursuant to 82-4-233 and that included introduced species; and

(ii) at least one of the following conditions exists:

(A) the standards of 82-4-233(1) are otherwise achieved;

(B) the operator has demonstrated substantial usefulness of the reclaimed vegetation for grazing of livestock;

(C) the operator demonstrates that the reclaimed vegetation has substantial value as a habitat component for wildlife present in the area; or

(D) the topography and soils are suitable for conversion to cropland or hayland consistent with the standards of 82-4-232(8) and the department approves and the operator completes that conversion.

(b) On lands that meet the criteria described in subsection (2)(a), interseeding or supplemental planting may be performed without reinitiating the liability period provided in subsection (1)."

Section 2. Effective date. [This act] is effective on the date that it is approved hy the secretary of the United States department of the interier pursuant to 30 U.S.C. 1253. If the secretary disapproves any portion of [this act], those provisions that are approved become effective on the date of approval.

The initial completeness notice must note all deficiency issues, and the department may not in a later completeness notice raise an issue pertaining to the initial application that was not raised in the initial notice. The department may, however, raise any deficiency during the adequacy review pursuant to subsection (1)(b). The board shall notify the applicant concerning completeness as soon as possible. An application is considered complete unless the applicant is notified of any deficiencies within the appropriate review period.

(b) Unless the review period is extended as provided in this section, the board shall review the adequacy of the proposed reclamation plan and plan of operation within 30 days of the determination that the application is complete or within 60 days of receipt of the application if the board does not notify the applicant of any deficiencies in the application. (ii) *If the department determines that additional time is needed for analysis to determine whether a detailed environmental impact statement is necessary under 75-1-201, the department and the applicant shall negotiate to extend the period prescribed in subsection (1)(b) by not more than 75 days to permit reasonable analysis. The applicant may by written waiver extend this period.*

(iii) If the department determines that additional time is needed to review the application and reclamation plan for a major operation, the department and the applicant shall negotiate to extend the period prescribed in subsection (1)(b) by not more than 365 days in order to permit reasonable review. *The applicant may by written waiver extend this time period.*

(b) when the previously adopted reclamation plan is impossible or impracticable to implement and maintain;

(c) when significant environmental problem situations are revealed by field inspection.

(4) During the term of an operating permit, an operator may apply for an amendment or revision to the permit. The operator may not apply for an amendment to delete disturbed acreage from the permit.

(5) Applications for major amendments must be processed in the same manner as applications for new permits.

HeinOnline -- 1995 vol. I 575 1995

(6) Major amendments are those that may significantly affect the environment. Minor amendments are those that will not significantly affect the environment. The department may by rule establish criteria for classification of amendments as major or minor. The rules must establish requirements for the content of applications for amendments and revisions and procedures for processing of minor amendments.
